

## NBDE520-BBMP

Dell SP325 Pro Wired Speakerphone

### Product Overview

Dell 520-BBMP SP325 Pro Wired Speakerphone, 75 cm cable length, Digital signal Processing, Full Duplex Audio, Echo cancelation, Digital micro-electromechanical systems (MEMS) microphones, 4 microphones, Omni-Directional Polar pattern, 82 dB Peak Audio Output, 60 mm Speaker size, Mono Speaker Output mode, USB-C Host Interface, Travel Pouch, Certifications - Microsoft Teams / Zoom

## Specifications

### Overview Summary:

Experience crystal-clear communication with the Dell SP325 Pro Wired Speakerphone, designed for seamless audio in home offices, shared workspaces, or on the go. Equipped with 4 AI-powered omni-directional microphones and full duplex audio, it ensures your voice is captured with precision while minimizing background noise. Its compact design and 75 cm cable make setup simple, and the included travel pouch adds convenience for mobility. Shop now to enhance your virtual meetings with professional-grade sound quality.

Enjoy versatile connectivity with the USB-C interface and compatibility across Windows, Mac, Linux, and ChromeOS systems. Certified for Microsoft Teams and Zoom, the speakerphone provides reliable performance for work calls, online learning, and conference meetings. Buy now and upgrade your audio experience with a device built for clarity and convenience.

**Performance tier:**Premium

**Uses:**Online meetings, conference calls, home office, remote work, virtual collaboration, distance learning

### Overview:

#### Dell Pro Wired Speakerphone SP325 - Clear Audio Anywhere

Experience seamless communication with the Dell Pro Wired Speakerphone SP325, designed for home offices, shared workspaces, or remote work on the go. This speakerphone delivers crisp, reliable sound while minimizing background noise, thanks to advanced AI-powered microphones and full-duplex audio technology. Its compact design and travel-ready accessories make it easy to carry and set up wherever you need professional-quality audio.

### Description:

The Dell Pro SP325 combines intelligent sound processing and durable construction to enhance every call or conference. Four AI-driven MEMS microphones capture voices from all directions while actively reducing ambient noise. Its mono dynamic speaker provides clear output for calls or music, and intuitive controls allow easy management of calls, volume, and muting. The USB-C connection ensures quick, plug-and-play setup across multiple operating systems, including Windows, MacOS, Linux, and ChromeOS. A convenient travel pouch and compact design make this speakerphone portable without compromising performance.

### Features:

#### Advanced Audio Performance

The SP325 uses digital signal processing and echo cancellation to maintain clarity during conversations. Full-duplex audio allows simultaneous speaking and listening without distortion, while omni-directional microphones cover up to 2.5 meters. The speaker handles a frequency range of 90Hz to 20kHz in music mode and 100Hz to 14kHz for calls, with peak audio reaching 82 dB, delivering rich sound for all communication needs.

User-Friendly Controls

Designed for efficiency, the speakerphone includes simple controls for Microsoft Teams, including answer, end call, mute/unmute, and volume adjustment. Status indicators for power, active calls, mute, and Teams notifications keep users informed at a glance.

Connectivity and Compatibility

The SP325 connects via USB-C and includes a USB-A adapter for versatile setup. It is plug-and-play ready and compatible with a wide range of systems, including Windows 10 and 11 (64-bit), MacOS, Linux, Ubuntu 24.04, and ChromeOS.

Compact and Portable Design

With a diameter of 125 mm, a depth of 39 mm, and a weight of just 295 grams, this speakerphone is lightweight and easy to transport. The package includes a travel pouch and quick start guide for convenient mobility, making it ideal for professionals who frequently work from different locations.

Certifications and Software Support

Certified for Microsoft Teams and Zoom, the SP325 integrates seamlessly into popular communication platforms. It is also supported by Dell Display and Peripheral Manager and the Dell Device Management Console for easy device management.

Key Highlights

- Four omni-directional AI microphones with noise-canceling capabilities
- Mono dynamic speaker delivering 82 dB peak audio
- Full-duplex audio with echo cancellation
- Plug-and-play USB-C interface with included USB-A adapter
- Portable design with travel pouch for on-the-go use
- Compatible with Windows, MacOS, Linux, ChromeOS, and Ubuntu
- Microsoft Teams and Zoom certified with intuitive call controls
