NBDE580-BBCZ

Dell KM900 Premier Collaboration Wireless Keyboard and Mouse

Product Overview

Dell KM900 Premier Collaboration Wireless Keyboard and Mouse - US International (QWERTY)

Specifications

Overview:

Designed with an extraordinary level of detail, our premium keyboard and mouse transform collaboration, enhance productivity and provide all-day comfort.

Features:

Work smarter
Be more collaborative and productive with the world's first Zoom-certified keyboard and premium mouse. Innovative touch controls for Zoom on the keyboard let you mute and unmute your microphone, toggle video on and off, share your screen and bring up the chat panel. The mouse combines a horizontal scroll wheel with a traditional scroll wheel up top for 4-way scrolling that makes navigating all things digital more intuitive than ever before.

Work Comfortably
The contoured design of the mouse fits the shape of your hand for a comfortable palm grip and durable tilt-legs on the keyboard set your wrists at the optimal typing angle, making long work sessions feel like a breeze.

Intelligent illumination
Smart backlighting with hand-proximity-detection lights up the keys as you get close, helping you to work better in any environment. Turns off in brighter conditions to conserve battery power.

Work everywhere
Thanks to the track-on-glass sensor you can easily work wherever you need to from glass and wood, to park benches and café tables alike. The DPI is adjustable from 800 to 8000 in increments of 200 so you can dial in the mouse to your preferences.

Ultra-quiet typing
Get optimal type-feel without the noise thanks to the scissor-switch key design. Engineered to be satisfying and silent at the same time.

Seamless and secure connection
The dual mode RF 2.4 GHz and Bluetooth® 5.1 connectivity lets you effortlessly connect and switch with up to 3 devices (two connections via Bluetooth and one connection via RF dongle).

Long-lasting charge
The keyboard battery lasts up to twenty days in a single charge, with one minute of charging lasting a whole day . The mouse battery lasts up to three months in a single charge, and in just two minutes you'll get a charge for full day use . Thanks to USB-C charging, you can now remove the need for external batteries, thus reducing waste.

Tuned to your specifications
Dell Peripheral Manager lets you customise your accessories to elevate your workflow. Make DPI adjustments and configure the programmable buttons on your keyboard and mouse to your frequently used commands to empower productivity.

Compatibility:

- 2.4GHz - Windows 7, Windows 8.1,10 and 11 or later; Mac; Linux (Red Hat Enterprise 8.0 /Ubuntu 18.4); Chrome; Android OS.
- Bluetooth - Windows 8.1,10 and 11 or later; Mac; Linux (Red Hat Enterprise 8.0 /Ubuntu 18.4); Chrome; Android OS.
- Dell Peripheral Manager (required for touch controls for Zoom)
- Compatible with Windows 10, 11 or later.
