HP 65W Dual USB-C Laptop charger

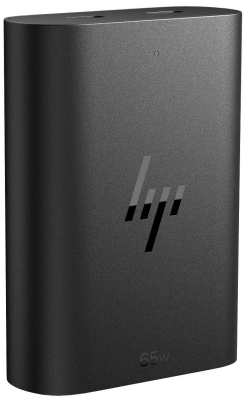

Product Overview

HP 600Q7AA 65W Dual USB-C Laptop charger, 65W GaN Power Delivery Output, Two simultaneous USB-C charging Ports, Supports up to 65 W Power Delivery, Output voltages include 5V / 9V / 12V / 15V / 20V

Specifications

Overview Summary:

Upgrade your mobile setup with the HP Dual USB-C 65W GaN Laptop Charger (Part Number: 600Q7AA), a compact powerhouse designed specifically for South African users who demand reliability and speed. This advanced charger utilizes Gallium Nitride technology to deliver rapid charging while remaining significantly smaller than previous models, making it the perfect companion for daily commutes or business travel.

Featuring two USB-C ports, you can simultaneously charge your laptop, smartphone, tablet, or other compatible devices without waiting in line. Its universal compatibility ensures seamless integration with a wide range of modern tech ecosystems, providing consistent 65W power delivery whenever and wherever you need it. Don't let a dead battery ruin your day; buy now to experience the ultimate convenience.

Performance tier: High-End Portable Power

Uses: Laptop charging, smartphone charging, tablet charging, travel power solution, dual-device multitasking

Overview:

The HP Dual USB-C 65W GaN Laptop Charger (Part Number: NBHP600Q7AA) represents a significant leap in portable power technology. Designed for professionals and travelers who demand efficiency, this compact adapter utilizes advanced Gallium Nitride (GaN) technology to deliver robust performance without the bulk of traditional chargers. It is roughly 20% smaller than previous generations while maintaining the ability to charge laptops, tablets, and smartphones simultaneously through its dual USB-C ports.

This charger works seamlessly with a wide ecosystem of USB-C devices, not limited to HP products, making it a versatile choice for modern digital setups. The compact form factor ensures it fits easily into any bag or pocket, while the high-efficiency power delivery supports rapid charging needs for up to 65 watts. Whether you are powering a work laptop or a mobile device on the go, this unit provides reliable energy with minimal heat generation.

Description:

The HP Dual USB-C 65W GaN Laptop Charger (Part Number: NBHP600Q7AA) is a compact and powerful charging solution designed to simplify your daily connectivity. Key benefits include its ultra-small size which makes it ideal for travel, dual USB-C ports that allow you to charge multiple devices at once, and the use of Gallium Nitride technology for higher efficiency and less heat compared to standard chargers.

Features:

Tiny But Mighty Design
Traveling becomes effortless with this petite powerhouse that packs a serious punch. Despite its compact dimensions, it delivers all the necessary benefits for efficient charging without taking up valuable space in your bag. The use of Gallium Nitride technology allows this unit to be 20% smaller than previous generation models while still providing maximum power output.

Universal Fast Charging Capabilities
Experience rapid energy transfer with the fast charging capabilities inherent to USB-C standards. This charger supports quick charging for most USB-C devices, ensuring your device ecosystem remains wide open and ready to power up regardless of the brand. It eliminates the need to carry multiple adapters by serving as a universal solution for laptops, phones, and tablets.

Dual Port Multitasking
Manage your daily charging needs with two dedicated USB-C ports designed for simultaneous use. This setup allows you to charge your phone and laptop together or connect a tablet alongside other accessories without waiting for one device to finish before starting another. Whatever powers your day can plug in here at the same time.

Technical Specifications:

- Power Output: 65 W with support up to 65 W power delivery
- Output Voltages: 5V, 9V, 12V, 15V, and 20V
- Input Frequency: 47-63 Hz
- Operating Temperature Range: 0 to 35 degrees Celsius (32 to 95 degrees Fahrenheit)
- Dimensions: 75 x 53 x 22 mm
- Weight: 85 grams
- Minimum System Requirement: USB Type-C port
- Sustainability: Constructed with at least 20% post-consumer recycled plastic

What's in the box
The package includes everything you need to start using your new charger immediately. Inside the box, you will find the AC power adapter unit, a USB Type-C cable for connecting your device, one standard power cord, and a Warranty card.

Specifications	
Product Code	NBHP600Q7AA
Compatibility	Supports up to 65 W power delivery
Input frequency	47-63 Hz
Input operating current	1.6 A at 90 VAC max
Power consumption	65 W
Output power	65 W
Output voltages	5V/9V/12V/15V/20V
Cable length	cable)
Operating temperature range	0 to 35degreesC
Operating temperature range	32 to 95degreesF
Non-Operating Humidity Range	10 to 95% RH
Operating humidity range	20 to 95% RH (non-condensing)
Storage temperature range	-20 to 85degreesC
Storage temperature range	-4 to 185degreesF
Certifications and compliances	CE Mark , IEC 60950-1 , EN 60950-1 , UL 60950-1 , UL 62368-1 , SELV , C-UL-US , DENAN , EN 55022 Class B , FCC Class B , CISPR 32 Class B , CCC , NOM-1 NYCE , MTBF
Sustainability specifications	At least 20% post-consumer recycled plastic
Dimensions (W x D x H)	75 x 53 x 22 mm

Package dimensions (W x D x H)	75 x 53.3 x 22 mm
Weight	85 g
Package weight	525 g
Minimum System Requirements	USB Type-C port
What's in the box	cable , 1 Power Cord , Warranty Card

FAQ

What devices are compatible with this HP Dual USB-C 65W GaN Laptop Charger?
The charger supports up to 65 W power delivery and works with most USB-C devices, including laptops, tablets, and phones. It is not limited to HP products and requires a USB Type-C port for operation.

Can I charge multiple devices at the same time?
Yes, this compact powerhouse features two powerful ports that allow you to multitask your charging needs by connecting a phone and laptop or a tablet and toothbrush simultaneously.

How does the size compare to previous models?
This charger is 20% smaller than HP's last-generation 65W laptop charger, weighing only 85 g with dimensions of 75 x 53 x 22 mm, making it easy to travel with.

What technology enables the efficient charging performance?
The device utilizes gallium nitride (GaN) technology, which packs more power into a smaller form factor while maintaining high efficiency.

What is included in the box with this HP NoteBook Accessory?
The package includes an AC power adapter, a USB Type-C cable, one power cord, and a Warranty card.
