HP 320K Wired Desktop Keyboard - USB

Product Overview

HP 9SR37UT 320K Wired Desktop Keyboard - USB, 180 cm cable length, Full size 3-zone layout Keyboard Type, Plunger 2.0 mm Low Profile key Travel, Copilot special key, USB Type-A Port

Specifications

Overview Summary:

Upgrade your workspace with the HP Wired Desktop 320K Keyboard, designed specifically for users in South Africa who demand reliability and comfort. This full-size wired keyboard features a clean layout with low-profile keys that ensure quiet, accurate typing, making it ideal for long work sessions or study periods. The dedicated Copilot key offers instant access to AI assistance, streamlining your productivity on Windows 10 and 11 systems without the need for complex drivers.

Built with durability in mind, this keyboard withstands daily use with a lifespan of 10 million keystrokes and is easy to clean with disinfecting wipes. The stable USB Type-A connection provides consistent performance, while the adjustable tilt and ergonomic design help reduce wrist strain during extended use. Don't wait for your equipment to slow you down; buy now to experience seamless typing efficiency.

Performance tier: Standard Reliable

Uses: Office work, Data entry, Home office tasks, Studying, General computing

Overview:

The HP Wired Desktop 320K Keyboard (Part Number NBHP9SR37UT) combines a clean, practical design with the reliability needed for everyday work and home office environments. This full-size keyboard features a stable wired USB connection that ensures consistent performance without the need for drivers or software installation. The low-profile plunger keys offer a quiet typing experience with 2.0 mm of travel, making it ideal for long sessions where comfort and reduced hand fatigue are priorities. A dedicated Copilot key provides instant access to Microsoft AI tools, streamlining productivity tasks directly from your keyboard.

Description:

The HP Wired Desktop 320K Keyboard offers a comfortable full-size 3-zone layout with low-profile plunger keys designed for quiet, accurate typing. A dedicated Copilot key provides instant access to Microsoft Copilot for smarter productivity, while the wired USB Type-A connection ensures dependable plug-and-play use. Built for daily environments, it supports easy cleaning with approved disinfecting wipes and is constructed using sustainable materials like 75 percent post-consumer recycled plastic, making it a practical choice for modern Windows-based systems.

Features:

Designed for comfort and productivity
This keyboard utilizes a reduced-height design to help keep wrists in a more natural position during extended use. The low-profile keys deliver a smooth and quiet typing experience, supported by a 2.0 mm key travel that balances speed and control effectively. A full numeric keypad and clearly spaced arrow keys maintain high productivity for both office tasks and data entry, while the adjustable 6-degree tilt allows users to fine-tune their typing angle for maximum ergonomic benefit.

The slim frame measures 426.2 x 110.9 x 16.7 mm and weighs approximately 450 g, providing a stable feel on the desk without adding unnecessary bulk. Packaging is compact at 445 x 150 x 25 mm for easy storage and transport. Setup is fast and straightforward with plug-and-play USB connectivity; simply connect to an available USB Type-A port and start working immediately. Built-in LED indicators provide clear visual feedback for Caps Lock and Num Lock, helping reduce typing errors and interruptions.

Durability and hygiene
Daily use naturally leads to dust and buildup, but this model is designed to handle routine cleaning with approved disinfecting

wipes. This makes it well suited for shared workspaces, offices, and home desks where hygiene and maintenance matter. The keys are rated for a lifespan of 10 million keystrokes, ensuring long-lasting durability for heavy users.

A dedicated Copilot key gives quick access to Microsoft Copilot, allowing users to streamline tasks, generate ideas, search the web, and collaborate more efficiently within Windows environments. This model is compatible with PCs running Windows 11 or Windows 10 and requires an available USB Type-A port.

Key specifications

- Full-size 3-zone layout with numeric keypad
- Low-profile plunger keys with 2.0 mm travel
- Dedicated Copilot special key for AI productivity
- USB Type-A wired connection with 180 cm cable length
- Quiet typing with long-lasting key durability rated for 10 million keystrokes
- LED indicators for Caps Lock and Num Lock status

Sustainability and environmental impact

Made with 75 percent post-consumer recycled plastic and fully recyclable packaging, this model supports environmentally conscious purchasing without compromising durability or performance. It meets various international certifications including CE, FCC, RoHS, and UKCA.

What's in the box

- Wired keyboard
- R.E.D. RTF card

The product includes a wired keyboard and an R.E.D. RTF card to assist with setup and registration details for this HP model.
