Specifications

About this product

The Noble Stainless Steel Disc Padlock 60mm delivers strong corrosion resistance and long term security with a stainless steel armor outer shell, weatherproof and rustproof design, and reliable waterproof construction, ideal for storing and securing gates, doors, and storage units.

Overview Summary

Product: Noble Stainless Steel Disc Padlock 60mm

The Noble Stainless Steel Disc Padlock 60mm is crafted for durability and dependable security for residential and commercial applications. Its weatherproof and rustproof stainless steel armor outer shell resists corrosive environments and maintains integrity under rain, moisture, and outdoor elements. The 60mm size fits most storefront gate receptacles and storage doors while providing robust shutter and gate protection.

This padlock includes 2 precision cut keys for smooth operation and a secure locking experience. Backed by a 1 month warranty, it is ideal for securing gates, sheds, garages, lockers, and outdoor receptacles without worry of rust or water damage.

Performance tier: Heavy duty outdoor security

Uses:gate security, storage units, outdoor sheds, garage doors, storefront barriers

Description

The Noble Stainless Steel Disc Padlock 60mm is engineered for those who need a reliable, weatherproof lock that can withstand outdoor conditions without corroding or failing. Its stainless steel armor outer shell protects the internal locking mechanism from the elements, ensuring long term performance. Designed for general purpose and heavy duty applications, this padlock fits most storefront gate receptacles and utility doors.

This padlock offers smooth key operation, secure locking, and strong resistance to rust and water damage, making it suitable for exterior gates, storage units, sheds, and other access points that demand robust security. It is ideal for homeowners, business owners, and anyone needing dependable protection in challenging conditions.

Features

- 60mm stainless steel disc design: Solid construction for reliable strength and security.
- Weatherproof and waterproof: Engineered to resist rain, moisture, and outdoor exposure.
- Rustproof construction: Maintains appearance and performance in corrosive conditions.
