Specifications

Summary Overview:

Upgrade your productivity with the Lenovo ThinkPad X1 2-in-1 Gen11 Aura Edition, now available for purchase in South Africa. This premium business device combines a powerful Intel Core Ultra 7 processor with versatile 2-in-1 functionality, making it perfect for professionals who need performance on the go.

Featuring a stunning 14-inch WUXGA touchscreen and integrated 4G LTE connectivity, you can work seamlessly from anywhere. Equipped with Windows 11 Pro and built-in AI capabilities, this laptop ensures smooth multitasking and enhanced security for your business needs.

Secure yours today by shopping now to experience the ultimate blend of style, power, and mobility tailored for the South African market.

Laptop performance tier:Premium Business

Uses:Business productivity, creative design, video conferencing, mobile work, digital note-taking

Overview:

Experience the pinnacle of mobile productivity with the Lenovo ThinkPad X1 2-in-1 Gen 11 Aura Edition, a premium convertible laptop designed for professionals who demand power and versatility. Powered by the latest Intel Core Ultra 7 processor from the Panther Lake series, this device delivers exceptional performance through its unique architecture of eight cores, blending high-efficiency low-power units with four powerful performance cores to handle complex tasks effortlessly. With up to 49 TOPS of AI processing capability via a dedicated Neural Processing Unit, it is classified as an AI PC and Copilot+ PC, ensuring your daily workflows are accelerated by intelligent automation while maintaining smooth multitasking capabilities.

The display on this model is a standout feature, offering a stunning 14-inch WUXGA capacitive multi-touch screen with a bright 500-nit LED backlight that ensures visibility even in well-lit environments. The glossy IPS panel supports a resolution of 1920 x 1200 and covers 100% of the sRGB color gamut, making it ideal for creative work or media consumption. Weighing just over a kilogram and crafted from durable aluminium on both the top and bottom, this machine combines portability with the ruggedness required for business environments, having passed rigorous MIL-STD-810H military tests.

Description

The Lenovo ThinkPad X1 2-in-1 Gen 11 Aura Edition (Part Number NBLE21V9005BZA) is a high-performance convertible laptop that seamlessly transitions between tablet and notebook modes. This model comes equipped with an Intel Core Ultra 7 processor, 32GB of fast LPDDR5X memory, and a spacious 1TB SSD for rapid data access. Key benefits include built-in 4G LTE connectivity for staying online anywhere, Wi-Fi 7 support for ultra-fast wireless speeds, and a comprehensive suite of ports including three Thunderbolt 4 connectors. The package includes the Lenovo Slim Pen 2 for precise digital note-taking

and creative work, all protected by robust security features like a fingerprint reader in the power button and a physical camera privacy shutter.

Beyond raw processing speed, this notebook prioritizes connectivity and expansion with a versatile array of ports designed to eliminate the need for dongles. Users benefit from three Thunderbolt 4 ports that support USB Power Delivery up to 65W and DisplayPort 2.1, alongside a dedicated HDMI output capable of driving external displays at up to 4K resolution. The inclusion of built-in 4G LTE via an embedded eSIM ensures you remain connected on the go without relying solely on Wi-Fi networks.

Features:

Key Performance Highlights

- CPU: Intel Core Ultra 7 355 Series with 8 Cores (4 Performance + 4 Low Power Efficient) and a max turbo speed of 4.7GHz
- AI Capabilities: Integrated NPU delivering up to 49 TOPS for advanced AI tasks and Copilot+ PC functionality
- Memory: 32GB LPDDR5X-7467 soldered memory providing ultra-fast data transfer rates with no upgrade slots available
- Storage: 1TB M.2 2280 PCIe Gen 4 NVMe SSD for rapid boot times and application loading, supporting up to 2TB total capacity
- Graphics: Integrated Intel Graphics optimized for multimedia and light creative workloads

The device runs on Microsoft Windows 11 Professional in a 64-bit architecture, ensuring compatibility with enterprise software and advanced security management tools. Security is paramount for business users, featuring a discrete TPM 2.0 chip, a fingerprint reader integrated into the power button, and an IR camera that enables secure facial recognition login via Windows Hello. Additional privacy measures include a physical shutter to cover the 5MP webcam when not in use.

Connectivity and Display Specifications

- Wireless: Intel Wi-Fi 7 (BE211) with Bluetooth 5.4 for next-gen wireless speeds
- Cellular: Built-in Snapdragon X12 LTE Modem supporting 4G LTE CAT6 with embedded eSIM support
- Display: 14-inch WUXGA IPS touchscreen with 500 nits brightness, anti-glare coating, and a high screen-to-body ratio of 86.46%
- Audio: Stereo speakers delivering Dolby Atmos sound powered by SoundWire technology

The design includes a backlit keyboard for comfortable typing in low-light conditions and a precision trackpad that responds accurately to touch inputs. For creative professionals, the device supports the Lenovo Slim Pen 2, allowing for natural handwriting and drawing directly on the screen. The system is managed by Intel Connectivity Performance Suite and Lenovo AI Now software to optimize performance and battery life dynamically.

What's in the box

- Lenovo ThinkPad X1 2-in-1 Gen 11 Aura Edition Laptop
- 65W USB-C Slim GaN Power Adapter (3-pin)
- Lenovo Slim Pen 2
- Power cord and documentation

This model, identified by the part number NBLE21V9005BZA, represents a top-tier choice for users in the South African market who require a reliable, high-spec machine capable of handling demanding professional tasks. The combination of a durable aluminium chassis, military-grade testing certification, and extensive connectivity options makes it a robust solution for modern work environments.

FAQ

Is the memory on this laptop upgradeable?

No, the Lenovo ThinkPad X1 2-in-1 Gen 11 Aura Edition comes with 32GB of LPDDR5X memory that is soldered to the systemboard and has no slots for expansion.

Does this model include a SIM card for cellular connectivity?

This device features built-in 4G LTE support via an embedded eSIM, but it does not include a physical Nano-SIM card with purchase.

What ports are available on the side of the notebook?

The unit is equipped with three Thunderbolt 4 ports supporting USB PD and DisplayPort 2.1, one USB-A port, an HDMI 2.1 output, and a headphone/microphone combo jack.

Does the package include the stylus for the touch screen?

Yes, this model comes bundled with the Lenovo Slim Pen 2 to utilize the capacitive multi-touch display functionality.

Can I connect external monitors using the HDMI port?

The built-in HDMI port supports up to a resolution of 4K at 60Hz for connecting external displays.
