TP-Link Archer GE230 BE3600 Dual-Band Wi-Fi 7 Gaming Router

Product Overview

TP-Link Archer GE230 BE3600 Dual-Band Wi-Fi 7 Gaming Router; 3.6 Gbps combined wireless speed; 2882 Mbps 5 GHz; 688 Mbps 2.4 GHz; 2 x 2.5 Gbps Ethernet ports; 3 x 1 Gbps LAN ports; USB 3.0; dedicated 5 GHz gaming band; Turbo Game Acceleration; Multi-Link Operation; EasyMesh; RGB lighting; HomeShield

Specifications

About this product

The TP-Link Archer GE230 BE3600 Dual-Band Wi-Fi 7 Gaming Router delivers up to 3.6 Gbps wireless speed with 2882 Mbps on 5 GHz and 688 Mbps on 2.4 GHz, plus 2 x 2.5 Gbps ports, dedicated gaming features, Turbo Game Acceleration, Multi-Link Operation, RGB lighting and EasyMesh support. Designed for competitive gaming, streaming and high-performance home networking, it helps reduce lag and improve connection stability. Buy the Archer GE230 online for a powerful Wi-Fi 7 gaming network.

Overview Summary

TP-Link Archer GE230 BE3600 Dual-Band Wi-Fi 7 Gaming Router is designed for gamers who need fast wireless performance, low-latency connectivity and advanced network control. Wi-Fi 7 delivers combined wireless speeds of up to 3.6 Gbps, with up to 2882 Mbps on the 5 GHz band and 688 Mbps on the 2.4 GHz band. Multi-Link Operation, 4K-QAM,

Multi-RUs, OFDMA and 2 x 2 MU-MIMO help provide efficient connections for compatible devices.

The Archer GE230 includes dedicated gaming functionality such as a 5 GHz gaming band, gaming port, game application acceleration, Gamers Private Network acceleration, game statistics and a dedicated game panel. Two 2.5 Gbps Ethernet ports support high-speed wired networking, while four external antennas and Beamforming help extend wireless coverage. RGB lighting and a race car-inspired design add a gaming-focused look to the setup.

Performance tier:High-performance Wi-Fi 7 gaming router

Uses:Online gaming, competitive gaming, game streaming, 4K streaming, home networking, high-speed wireless networking, multi-device connectivity

Description

The TP-Link Archer GE230 is a BE3600 dual-band Wi-Fi 7 gaming router built to provide fast and responsive network connectivity for modern gaming setups. It supports wireless speeds of up to 3600 Mbps, with 2882 Mbps available on the 5 GHz band and 688 Mbps on the 2.4 GHz band. Wi-Fi 7 features including Multi-Link Operation, 4K-QAM and Multi-RUs are designed to improve throughput and connection efficiency when used with compatible Wi-Fi 7 devices.

For wired gaming, the Archer GE230 provides 1 x 2.5 Gbps WAN port and 1 x 2.5 Gbps LAN port alongside 3 x 1 Gbps LAN ports. The dedicated gaming port can prioritize gaming device traffic, while Turbo Game Acceleration provides additional optimisation for game applications, gaming devices and game servers. The router also supports Gamers Private Network acceleration for supported gaming connections.

Four external antennas, Beamforming, 2 x 2 MU-MIMO, OFDMA, Airtime Fairness, DFS and four wireless streams help the router manage multiple connected devices and maintain efficient wireless performance. EasyMesh compatibility allows compatible routers and range extenders to be combined into a whole-home mesh network.

The gaming-focused hardware features a race car-inspired design with customizable RGB lighting. A dedicated game panel provides access to network status, router performance, RGB settings, accelerated games and gaming functions. The Tether app and web interface provide convenient management of the network.

Security features include HomeShield, SPI Firewall, Access Control, malicious site blocking, intrusion prevention, DDoS attack prevention and IoT protection. The router also supports OpenVPN, PPTP, L2TP and WireGuard VPN server and client functions. A USB 3.0 port supports external storage with FTP Server, Media Server and Samba Server functions.

Features

The Archer GE230 combines Wi-Fi 7 wireless technology with gaming-focused network management, high-speed Ethernet connectivity and whole-home mesh support.

- BE3600 dual-band Wi-Fi 7 wireless performance
- Up to 3600 Mbps combined wireless speed
- 5 GHz wireless speed up to 2882 Mbps
- 2.4 GHz wireless speed up to 688 Mbps
- Multi-Link Operation for compatible Wi-Fi 7 devices
- 4K-QAM and Multi-RUs support
- Dedicated 5 GHz gaming band
- Dedicated 2.5 Gbps gaming port
- Turbo Game Acceleration for supported gaming traffic
- Game application and game device acceleration
- Gamers Private Network acceleration
- Dedicated game panel with network and gaming information
- Comprehensive gaming traffic statistics

Product Specification Sheet

- Customizable RGB lighting
- Race car-inspired gaming design
- 4 x external antennas
- Beamforming technology
- 2 x 2 MU-MIMO
- OFDMA technology
- Airtime Fairness
- DFS support
- EasyMesh compatible
- 1 x 2.5 Gbps WAN port
- 1 x 2.5 Gbps LAN port
- 3 x 1 Gbps LAN ports
- 1 x USB 3.0 port
- HomeShield security features
- OpenVPN, PPTP, L2TP and WireGuard VPN client and server support
- Router Mode and Access Point Mode
- TP-Link Tether app and web management

Flawless Gaming Experience Powered by 3.6 Gbps Wi-Fi 7

Archer GE230 is built to future-proof your gaming with Wi-Fi 7, delivering a super-smooth gaming experience with 4K-QAM and Multi-Link Operation achieving combined speeds of up to 3.6 Gbps.

Higher Speed, Lower Latency

More reliability with Multi-Link Operation

20% Higher Transmission Rates

4K-QAM packs 120% data for higher speeds

Empowering your Games with Multi-Gigabit Connectivity

Automatically prioritizes your game device traffic, delivering 2.5G ultra-fast speed.

Unstoppable Turbo Game Acceleration

Archer GE230 enhances your gaming experience by providing advanced acceleration for applications and devices, while intelligently selecting the optimal traffic path for your game connections.

Seamless RGB Lighting

Ignite your gaming with millions of colors

Race Car-Inspired Design

Engineered for efficient heat dissipation, driving you towards victory with stability.

Game Panel

Whether you prefer the Tether app or TP-Link's web interface, you can see network status, router performance, RGB settings, accelerated games and gears at a glance on an exclusive game dashboard.

Game Statistic

Gain insight and better control of your gaming network with comprehensive gaming traffic reports. The traffic of various periods can be displayed, including devices and applications. The Tether app allows you to manage network settings

Flexibly Create Whole Home Mesh WiFi

Archer GE230 is EasyMesh-compatible. If you have any dead zones at home, just add another EasyMesh router/range

ComX Computers

Product Specification Sheet

extender to further form your whole home multi-gigabit mesh Wi-Fi. No more searching for a stable connection.

Smart Roaming

Uninterrupted streaming when moving around your home

One WiFi Name

No more switching between networks

Ethernet Backhaul

Integrated wired & wireless backhaul for fast and reliable mesh networking

Unified Management

Manage your whole home Wi-Fi from the central node via the Tether app/Web UI

KEEP EVERYTHING SECURE

Archer GE230 features HomeShield, with a series of built-in services to provide comprehensive antivirus protection that ensures your total security while gaming online.**

Product Specification Sheet

WiFi Capacity	High
	Dual-Band
	Allocate devices to different bands for optimal performance
	2x2 MU-MIMO
	Simultaneously communicates with multiple MU-MIMO clients
	OFDMA
	Simultaneously communicates with multiple clients
	Airtime Fairness
	Improves network efficiency by limiting excessive occupation
	DFS
	Access an extra band to reduce congestion
	4 Streams
	Connect your devices to more bandwidth
Advanced Features	Multi-Link Operation (MLO)
	4K-QAM
	Multi-RUs
	EasyMesh-Compatible
	Works with Alexa and Google Assistant
	IoT Network
Wireless Mode	Router Mode
	Access Point Mode
SECURITY	
Network Security	SPI Firewall
	Access Control
	IP & MAC Binding
	Application Layer Gateway
	HomeShield Security
	Real-Time IoT Protection
	Malicious Site Blocker
	Intrusion Prevention System
	DDoS Attack Prevention
	Home Network Scanner
Guest Network	1x 5 GHz Guest Network

	Subscription with an internet service provider (for internet access)
Certifications	CE, FCC, RoHS
Environment	Operating Temperature: 0degreesC~40degreesC (32degreesF ~104degreesF)
	Operating Humidity: 10%~90% non-condensing

FAQ

What is the TP-Link Archer GE230?

The TP-Link Archer GE230 is a BE3600 dual-band Wi-Fi 7 gaming router designed for high-speed wireless networking, online gaming, streaming and multi-device home networks.

What wireless speed does the Archer GE230 support?

The Archer GE230 supports up to 3600 Mbps combined wireless speed, with up to 2882 Mbps on 5 GHz and 688 Mbps on 2.4 GHz.

Does the Archer GE230 support Wi-Fi 7?

Yes. The Archer GE230 supports Wi-Fi 7 and features including Multi-Link Operation, 4K-QAM and Multi-RUs. Compatible client devices are required to use corresponding Wi-Fi 7 features.

Is the Archer GE230 suitable for online gaming?

Yes. It includes a dedicated 5 GHz gaming band, 2.5 Gbps gaming port, Turbo Game Acceleration, game application acceleration, gaming device acceleration and game server acceleration.

How many 2.5 Gbps ports does the Archer GE230 have?

The Archer GE230 has 2 x 2.5 Gbps Ethernet ports consisting of 1 x 2.5 Gbps WAN port and 1 x 2.5 Gbps LAN port.

Does the Archer GE230 support EasyMesh?

Yes. The Archer GE230 is EasyMesh compatible and can work with compatible EasyMesh routers and range extenders to create a whole-home mesh Wi-Fi network.

Does the Archer GE230 have USB connectivity?

Yes. It has 1 x USB 3.0 port supporting NTFS, exFAT, HFS+ and FAT32 storage formats, with FTP Server, Media Server and Samba Server functions.

Does the Archer GE230 support VPN?

Yes. The router supports OpenVPN, PPTP, L2TP and WireGuard VPN client and server functions.

Can the Archer GE230 be used with older Wi-Fi devices?

The router supports multiple Wi-Fi generations, while Wi-Fi 7-specific functions require compatible client devices.

How is the Archer GE230 managed?

The router can be managed using the TP-Link Tether app or through its web management interface.
