NET-CAT6WALL-LQ-B

LinkQnet RJ45 CAT6 Wall Box LQ branded

Product Overview

LinkQnet RJ45 CAT6 Wall Box LQ branded, LKE101-C6U

Specifications

Overview Summary:

The LinkQnet LKE101-C6U 1-port RJ45 CAT6 Wall Box provides a secure and reliable Ethernet connection for any home or office setup in South Africa. Designed to support CAT6 cables, it ensures data transfer speeds up to 10 Gbps, making it ideal for streaming, gaming, and large file transfers. Its compact, low-profile design allows easy installation on standard wall surfaces without cluttering your space. Shop now to enhance your network connectivity with a dependable wall-mounted Ethernet solution.

Buyers can easily connect devices like computers, printers, VoIP phones, IP cameras, and smart TVs using this wall box. Its single-port design keeps setups clean and organized while delivering high-speed performance for all your networking needs. Buy now to bring efficient and fast Ethernet connectivity to your home or office.

Performance tier: High-speed CAT6

Uses: Home networking, office networking, IP cameras, VoIP phones, smart TVs, computers, printers, multimedia streaming, online gaming, large file transfers

Overview:

LinkQnet RJ45 CAT6 Wall Box for Reliable Network Extension
The LinkQnet LKE101-C6U 1-port RJ45 CAT6 Wall Box is designed to provide a stable and structured way to extend Ethernet connectivity to fixed points within residential and commercial environments. It delivers a secure single-port connection point for network distribution, making it suitable for professional and home networking setups where reliability and clean installation are important.

Description:

The LinkQnet LKE101-C6U wall box delivers a practical networking termination point that supports consistent high-speed data

transfer through CAT6 cabling. It enables users to connect essential Ethernet-enabled devices such as desktop computers, printers, IP cameras, VoIP systems, and smart televisions with minimal signal loss. Built for structured cabling environments, it supports high-bandwidth applications including streaming, online gaming, and large file transfers while maintaining a stable connection. Its compact design allows it to blend neatly into wall installations, helping maintain an organised and professional finish in any environment.

Features:

RJ45 CAT6 Structured Cabling Connection Point
This wall box functions as a single-port Ethernet termination solution, making it ideal for dedicated network drops in specific rooms or workstations. It is commonly used in:

- Home office network setups requiring wired stability
- Commercial environments with structured cabling systems
- Security installations for IP camera connectivity
- Entertainment areas supporting smart TVs and media devices
- VoIP telephone network connections

By providing a fixed RJ45 access point, it helps reduce cable clutter while ensuring consistent network performance across connected devices.

High-Speed Ethernet Performance for Modern Networks
Built to support CAT6 cabling standards, this wall box is capable of handling high-speed data transmission suitable for demanding network usage scenarios. It is designed to maintain performance integrity across longer cable runs when properly installed within a structured system.

Key technical points include:

- Supports CAT6 Ethernet cabling for enhanced data throughput
- Capable of transmission speeds up to 10 Gbps depending on network setup
- Suitable for high-bandwidth applications such as streaming and large file transfers
- Provides stable connectivity for latency-sensitive tasks like gaming and VoIP

Clean Installation and Space-Saving Design
The LinkQnet LKE101-C6U is engineered for wall-mounted installation on standard electrical back boxes or flat wall surfaces. Its low-profile construction ensures a neat finish that integrates seamlessly into interior environments without creating visual clutter.

Design and installation benefits include:

- Compact form factor for discreet wall integration
- Suitable for standard outlet box mounting configurations
- Helps maintain organised and structured cable management
- Ideal for professional and residential network layouts

Part Number / SKU: NET-CAT6WALL-LQ-B

Overall, this wall box provides a reliable and structured networking solution for users seeking stable Ethernet access points combined with a clean and professional installation finish.
