Techflex 1m dura wrap with velcro 25.4mm Black

Product Overview

Techflex 1m dura wrap with velcro 25.4mm Black, DWN1.00BK

Specifications

Overview:

Dura-Wrap is the answer to organizing and controlling wires, cables and hoses that are subjected to constant and extreme use. The flexible sleeve is made from tightly woven ballistic Nylon with an aggressive, industrial strength hook and loop closure.

Dura-Wrap is used on wires to keep them together, on hoses and cables to prevent abrasion damage or on chains to keep them from ruining expensive finished surfaces. Easy, cut and wrap installation reduces downtime and eliminates the need to disassemble existing components to install.

DW is extremely flexible and easy to install over single or multiple hoses. In the event of a hose rupture, the high strength sleeving helps prevent high pressure fluid from becoming a danger to equipment operators and other personnel.
