

# NET-TG-3468

TP-Link TG-3468 Gigabit PCI Express Network Adapter

## Product Overview

TP-Link TG-3468 Gigabit PCI Express Network Adapter

## Specifications

### Overview:

TG-3468 10/100/1000Mbps Gigabit PCIe Network Adapter is a highly integrated and cost-effective 32-bit Gigabit PCIe Ethernet Adapter which is fully compliant with IEEE 802.3, IEEE 802.3u and IEEE 802.3ab specifications. The PCIe Gigabit Network Adapter TG-3468 is a high performance adapter designed for the high-speed PCI Express Bus Architecture. Designed to support 10/100/1000Mbps network speed Auto-Negotiation, 802.3x flow control and Wake-on-LAN technology. TG-3468 Gigabit PCIe Network Adapter is a highly integrated and cost-effective Gigabit Ethernet Adapter which is a good selection to upgrade your network.

### Features:

- 10/100/1000Mbps PCIe Adapter
- 32-bit PCIe interface, saving the finite chassis space
- Wake-on-LAN, convenient to manage over LAN

### Specifications:

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                                                      |

### Product Specification Sheet

|                            |                                                                           |
|----------------------------|---------------------------------------------------------------------------|
| <b>Network Media</b>       | 10BASE-T: UTP category 3, 4, 5 cable (maximum 100m)                       |
|                            | EIA/TIA-568 100ohm STP (maximum 100m)                                     |
|                            | 100BASE-TX: UTP category 5, 5e cable (maximum 100m)                       |
|                            | EIA/TIA-568 100ohm STP (maximum 100m)                                     |
|                            | 1000Base-T: UTP category 5, 5e cable (maximum 100m)                       |
| <b>Data Rates</b>          | 10/100/1000Mbps for Half-Duplex mode                                      |
|                            | 20/200/2000Mbps for Full-Duplex mode                                      |
| <b>LED Indicator</b>       | 1000Mbps Link/Act, 100Mbps Link/Act, 10Mbps Link/Act                      |
| <b>Flow Control</b>        | IEEE 802.3x Flow Control (Full-Duplex)                                    |
| <b>OTHERS</b>              |                                                                           |
| <b>Certification</b>       | CE, FCC, RoHS                                                             |
| <b>Package Contents</b>    | Gigabit PCI Express Network Adapter TG-3468                               |
|                            | Resource CD                                                               |
|                            | Quick Installation Guide                                                  |
| <b>System Requirements</b> | Windows 7(32/64bits), Windows Vista(32/64 bits), Window XP(32/64bits)     |
| <b>Environment</b>         | Operating Temperature: 0 degreesC~40 degreesC (32 degreesF~104 degreesF)  |
|                            | Storage Temperature: -40 degreesC~70 degreesC (-40 degreesF~158 degreesF) |
|                            | Operating Humidity: 10%~90% non-condensing                                |
|                            | Storage Humidity: 5%~90% non-condensing                                   |
