

NET-TL-EH210

TP-Link EH210 1 to 2 Gigabit Ethernet Splitter

Product Overview

TP-Link EH210 1 to 2 Gigabit Ethernet Splitter, Aluminum Alloy Case, 3x Gigabit RJ45 Ports, USB-C Power (1 Gigabit RJ45 input -> 2 Gigabit RJ45 Outputs, Powered via 1x USB-C cable)

Specifications

Overview Summary:

The TP-Link EH210 1 to 2 Gigabit Ethernet Splitter is a compact and dependable way to share a single Ethernet connection between two devices. With a durable aluminum alloy body and USB-C power, it delivers stable wired performance in a space-saving design suited to modern home and office setups in South Africa.

Designed for simplicity and reliability, this plug-and-play Ethernet splitter works instantly with common network cables and devices. It's an ideal choice for anyone needing fast, wired connectivity without complicated setup-shop now and upgrade your network with confidence.

Performance tier:Entry-level Gigabit

Uses:home networking, small offices, gaming setups, smart TVs, printers, wired internet sharing

Overview:

TP-Link EH210 1 to 2 Gigabit Ethernet Splitter

The TP-Link EH210 is a compact and powerful 1 to 2 Gigabit Ethernet splitter designed to expand a single Ethernet connection into two stable wired connections. It allows two devices to share one network source simultaneously while maintaining fast and reliable performance. Built with an aluminum alloy casing and high-quality internal components, it delivers efficient heat dissipation, long-term durability, and consistent network stability. With plug and play operation, USB-C power support, and wide compatibility with Ethernet cables and devices, the EH210 offers a simple and dependable networking solution for homes, offices, gaming setups, and entertainment systems.

Description:

The EH210 Gigabit Ethernet splitter transforms one wired network connection into two active Ethernet ports, allowing multiple devices to stay connected without sacrificing speed or stability. It supports up to 1000 Mbps transmission, works instantly with plug and play setup, and features a durable aluminum alloy body for better cooling and long-term reliability. Compact in size and easy to install, it is ideal for users who need a space-saving, high-speed wired networking solution for multiple devices.

Features:

High-Speed Network Expansion

Designed for modern gigabit networks, the EH210 supports up to 1000 Mbps transmission speeds with backward compatibility for 100 Mbps and 10 Mbps connections. This ensures smooth performance for streaming, gaming, video conferencing, downloads, and everyday internet use across multiple devices.

Simple Setup, Instant Connection

No configuration or technical setup is required. Just connect the Ethernet cables, plug in the USB-C power cable, and start using the network immediately. Any port can function as the input, making installation flexible and user-friendly.

Durable Aluminum Design

The aluminum alloy casing improves heat dissipation and protects internal components for stable long-term performance. Its solid construction ensures reliable operation even during extended use, making it suitable for continuous daily networking.

Compact and Space-Saving Build

With a small footprint, the EH210 fits easily into tight spaces on desks, shelves, or behind TVs and monitors. Its minimal design keeps your setup clean and organized without adding clutter.

Visual Connection Indicators

Built-in LED indicators display power status and Ethernet connection activity, allowing users to quickly confirm proper connectivity and network performance at a glance.

Wide Device and Cable Compatibility

The splitter works with Cat 8, Cat 7, Cat 6, Cat 5e, and Cat 5 Ethernet cables and supports a wide range of devices including routers, switches, hubs, computers, laptops, smart TVs, printers, wireless access points, set-top boxes, and gaming systems.

Ideal Usage Scenarios

- Home networking and entertainment setups
- Small office environments
- Gaming stations and consoles
- TV and media systems
- Workstations and monitoring setups

What's Included

- 1 x EH210 Gigabit Ethernet splitter
- 1 x USB-C power cable
- 1 x Cat 5e Ethernet cable
- Quick installation guide

Technical Details

- Ports: 3 x RJ45 Gigabit Ethernet ports (10/100/1000 Mbps, auto-negotiation, auto MDI/MDIX, half/full duplex)
- Power input: USB-C, 5VDC/0.3A
- Indicators: Power LED and network activity LEDs
- Material: Aluminum alloy case
- Dimensions: 2.3 x 2.1 x 0.7 inches (58 x 53 x 18.4 mm)
- Certifications: CE, FCC, RoHS, BSMI
- Operating temperature: 0degrees C to 40degreesC
- Operating humidity: 10% to 90% non-condensing
- Storage humidity: 5% to 90% non-condensing

Product Specification Sheet

Power	USB-C
	5VDC/0.3A
GENERAL	
Compatibility	Devices: Hubs, switches, routers, wireless devices, d computers, and more.
	Cables: Cat 8, Cat 7, Cat 6, Cat 5e, Cat 5
PHYSICAL	
Product Dimensions	2.3 x 2.1 x 0.7 in. (58 x 53 x 18.4 mm)
Package Content	1 x Ethernet Splitter (EH210)
	1 x USB Power Cable
	1 x Cat 5e Ethernet Cable
	Quick Installation Guide
OTHERS	
Certification	CE, FCC, RoHS, BSMI
Environment	Operating Temperature: 0degreesC~40degreesC (32degreesF~104degreesF)
	Operating Humidity: 10%~90% non-condensing
	Storage Humidity: 5%~90% non-condensing
