TP-Link 13 inch Switch Rack Mount kit

Product Overview

TP-Link 13 inch Switch Rack Mount kit

Specifications

Overview Summary:

The TP-Link 13-inch Switch Rack Mount Kit is a practical solution for securely installing compatible TP-Link network switches into a rack environment. Built from durable metal, it ensures a stable and professional mounting option that keeps network equipment organised and protected.

Ideal for home networks, offices, and small business setups, this rack mount kit supports a wide range of TP-Link 13-inch switches when mounting dimensions match. It offers a clean, space-saving installation that helps maintain airflow and easy access. Buy now to complete your rack setup with confidence, or shop now for a reliable mounting solution built to last.

Performance tier: Standard

Uses: Rack mounting network switches, organising network equipment, office network installations, home network setups

Overview:

TP-Link RackMount Kit-13 is a practical 13-inch switch rack mount kit designed to securely install compatible TP-Link switches and networking devices into standard rack systems. Built for durability and stability, it offers a reliable mounting solution for home networks, offices, and professional IT environments. The kit is compatible with multiple TP-Link 13-inch rack mount switches and other products, and can also be used with non-listed models when mounting ear size and hole spacing match correctly. Its solid metal construction ensures long-term use, firm installation, and dependable support for networking hardware.

Description:

The TP-Link 13-inch rack mount kit provides a simple and secure way to organize and mount switches in a rack setup. Made from durable metal, it delivers strong structural support, stable installation, and long-lasting reliability. It helps keep networking equipment neatly arranged, improves airflow management, and creates a cleaner, more professional rack layout while making maintenance and access easier for users.

Features:

Built for long-term reliability
This rack mount kit is manufactured from strong metal materials that provide excellent durability and resistance to bending or loosening. Once installed, the mount stays firmly in place and supports your device without wobbling or instability.

Wide compatibility support
Designed for TP-Link 13-inch rack mount switches, the kit also works with other compatible devices when the mounting ear dimensions and hole spacing align. This flexibility makes it suitable for a wide range of networking setups and equipment types.

Simple installation and secure fit
The design allows for easy alignment and mounting, ensuring a snug and secure rack installation. It reduces the risk of movement or accidental detachment, keeping your networking hardware protected and properly positioned.

Compatible TP-Link models

- OC300
- TL-R480T+
- TL-SF1016DS
- TL-SF1024D
- TL-SG1008
- TL-SG1008MP
- TL-SG1016D
- TL-SG1016DE
- TL-SG1016PE
- TL-SG1024D
- TL-SG1024DE
- TL-SG2210MP
- TL-SG3210
- TL-SX1008
- TL-SX3206HPP

Material and build quality

- Metal construction for strength and durability
- Firm mounting design for stable rack installation

- Suitable for professional network racks and compact IT environments

This 13-inch switch rack mount kit is an ideal solution for anyone looking to organize, secure, and optimize their networking equipment in a clean, professional rack setup.
