Detects motion and sends you alerts right away
Home burglary is the very thing we want to prevent. Set a camera towards the entrance of your home, garage, or basement to ensure the safety of your family and property. Receive a notification when the camera detects motion at home. It can be a notice of arriving package, or suspicious intrusion. Trigger light and sound effects to frighten away unwanted visitors.

Advanced night view helps guard you while you sleep
Sleep safe at night. Let your camera watch over your house while you're fast asleep. The 850 nm infrared night vision supports automatic color switch filter in low light conditions with a visual distance of up to 30 ft.

Privacy Mode and Local Storage Ensure Privacy
Turn on privacy mode to stop recording. Securely store up to 128 GB locally on a microSD card, equal to 384 hours (16 days) of footage. (Based on laboratory conditions)

High definition video
Capture every detail in crystal-clear 1080p definition. See exactly what happened in front of your camera any time that it was on. Know whether your kids are safe, well taken care of, or are getting into trouble.

Live view and two-way audio
When you take a trip, you can still make sure your fur babies aren't getting into trouble, or that your sitter is taking good care of them. Two-way audio allows you to tell them that you miss them (or to stop them from sharing your food).

Get a detailed look at your room
A wide range of coverage to capture every moment.

Share every memorable moment
Adorable and amusing moments are worth of sharing, especially with loved ones far away. Keep them in the loop on your day to day and part of your life with every precious second you share.

A tap leads to what matters most to you
The free Tapo Camera app puts everything you need at the tip of your fingers.

Check the video box to play back previous records
Choose a specific camera and locate what you want according to date.

Set a schedule to check periodic video
The camera would automatically record videos based on your schedule, no matter whether it detects motion or not.

Locate and preserve a fixed angle
When you click that saving position in the app, it will turn to that angel right away.

Check multiple views at the same time
See more you want from different devices, as it contains 4 views in one page and supports up to 32 cameras in one app. Tap one for a more detailed view.

Easy setup with soft AP configuration
You can set up the camera with the helpful app within minutes.
