

NF-272L

UltraLAN NF-272L 100m Multi-Function Laser Distance Meter

Product Overview

UltraLAN NF-272L 100m Multi-Function Laser distance meter, Rechargeable Battery

Specifications

Overview Summary:

The UltraLAN NF-272L 100m Multi-Function Laser Distance Meter is a precise and compact measuring tool ideal for construction, renovation and home DIY. This versatile device delivers accurate distance, area and volume readings up to 100 m, with smart features like Pythagorean measurement and a built-in rechargeable battery to keep you powered in the field. Designed for ease of use with a clear LCD, it's a reliable everyday solution for professionals and homeowners alike - buy now and take on your next project with confidence.

Enjoy fast, dependable measuring performance with this lightweight laser meter that combines essential functions in one compact package. Shop now to simplify your measuring tasks and elevate your efficiency on every job.

Performance tier:Standard multifunction precision tool

Uses:distance measurement, area and volume calculation, Pythagorean measurement, construction, renovation, DIY home projects

Overview:

UltraLAN NF-272L 100m Multi-Function Laser Distance Meter

The UltraLAN NF-272L 100m Multi-Function Laser Distance Meter is designed for precision and versatility, delivering reliable measurements across a wide range of tasks. Whether you are working on construction projects, interior design, or DIY home improvements, this device provides fast, accurate readings with minimal effort. Its durable construction and user-friendly interface make it a dependable tool for both professionals and enthusiasts who require precision in every measurement.

Description:

The UltraLAN NF-272L combines advanced laser technology with a robust, high-quality lens for precise distance measurements up to 100 meters. Its multi-function measuring modes allow users to calculate distances, areas, and volumes efficiently. The built-in rechargeable lithium battery ensures long-lasting use without frequent replacements, and the compact design makes it easy to carry and operate in any setting.

Features:

Multiple Measuring Modes

The device supports a variety of measurement options to suit different applications: distance, area, volume, and indirect measurements. This flexibility allows users to handle complex measurement tasks quickly and accurately, making it a versatile addition to any toolkit.

Precision and Build Quality

Equipped with a high-quality optical lens and a durable housing, the UltraLAN NF-272L offers consistent, accurate readings. Its construction ensures that the device can withstand daily use, providing reliability and performance over time.

Power and Convenience

The integrated rechargeable lithium battery keeps the device ready for extended work sessions without interruption. Easy charging and long battery life reduce downtime, making it convenient for professionals who need dependable, portable measurement tools.

Key Specifications

- Maximum measuring distance: 100 meters
- Measurement modes: distance, area, volume, indirect
- Battery type: built-in rechargeable lithium

ComX Computers

Product Specification Sheet

- Durable lens and construction for accurate readings
- Compact and portable design for ease of use
