N(F)-400.

AccoNet N-type (Female) Connector for ARF400 cable

Product Overview

AccoNet N-type (Female) Connector for ARF400 cable

Specifications

Overview Summary:

The Acconet N-Type (Female) Connector for ARF400 cable offers a dependable connection for RF and networking installations across South Africa. Crafted to ensure minimal signal loss and high-frequency performance, this connector fits ARF400 cable and delivers durability thanks to its corrosion-resistant build. Whether you're upgrading your telecom system, network rack or RF link, this connector allows quick installation and reliable long-term performance - buy now to secure your infrastructure.

Designed for both professional and residential applications, this connector is suitable for RF installations, network backhaul and telecom equipment. Shop now and enhance your setup with a premium connector that meets South African industry expectations.

Performance tier: Professional grade

Uses: Telecom systems, networking infrastructure, professional RF installations, high-frequency signal transmission

Overview:

Acconet N-Type Female Connector for ARF400 Cable
The Acconet N-Type (Female) Connector is designed specifically for use with ARF400 cables, ensuring a secure and reliable connection for various networking and RF applications. Its precision engineering guarantees consistent performance, making it ideal for professional installations and high-frequency signal transmission.

This connector provides a robust, corrosion-resistant connection with minimal signal loss. It is easy to install and compatible with standard ARF400 cables, offering long-lasting durability for both commercial and residential setups.

Product Description:

The N-Type Female Connector by Acconet is tailored for ARF400 cables, providing stable and high-quality signal transmission. Built for durability and reliable performance, it is suitable for networking, telecommunications, and RF systems. Users benefit from easy installation, strong connectivity, and long-term reliability.

Features:

Technical Details

- Compatible cable type: ARF400
- Connector gender: Female
- MiRO SKU: N(F)-400
- Manufacturer SKU: N1317BTGN

Why Choose This Connector

- Ensures low signal loss and high-frequency performance
- Durable construction resists corrosion and wear
- Simple installation process saves time for technicians
- Ideal for networking and RF applications requiring reliable connections

Applications

- Telecommunications systems
- Networking infrastructure
- Professional RF installations
- High-frequency signal transmission setups
