NP330NW

Microworld Wireless Print Server

Product Overview

Microworld NP330NW Wireless Print Server, WiFi & 10/100 Mbps RJ-45 LAN Port, USB 2.0 Host Port (Printer Interface, Arm 9 300MHz Processor, 64MB DDR2 RAM, 128MB NAND Flash, Support for SD card storage up to 256GB, Linux 3.4 Operating System

Specifications

Overview Summary:

The Microworld NP330NW Wireless Print Server lets you easily convert a USB printer into a shared network printer over both WiFi and wired LAN. This compact device supports Android, iOS, Windows, Mac, Linux and more so you can print from smartphones, tablets or computers without complex setup. Designed for easy configuration and multi-user sharing, it's a smart choice for home and small offices looking to streamline printing across devices - shop now.

Its space-saving build and broad compatibility make connecting and sharing a USB printer simple and flexible. Whether you're printing from your phone or PC, the NP330NW helps you take full advantage of your existing printer - buy now for reliable network printing.

Performance tier: Mid-range network print server

Uses:network printing, wireless print sharing, LAN printer access, mobile printing, USB printer networking

Overview:

NP330NW Wireless Print Server
The Wireless Print Server NP330NW is designed to transform a standard USB printer into a network ready device that can be shared across wired and wireless connections. It is built for households, offices, and workgroups that need reliable multi user printing without complicated setup steps.

Description:

This compact wireless print server enhances any workspace by enabling easy printer sharing, mobile printing support, broad USB printer compatibility, and simple configuration. Its lightweight design and strong connectivity options make it suitable for

both home and professional environments.

Features:

What This Device Delivers
The NP330NW enables users to share a single USB printer across a local network. It works smoothly with both wired and wireless setups, allowing teams or families to print without needing direct cable connections.

Sharing Capabilities
The print server allows several users on the same network to access the connected USB printer at the same time. It works with both Ethernet and WiFi networks.

Mobile and Cross Platform Printing
The device allows printing from Android smartphones, iPhones, and computers connected to the same network.

Printer Compatibility
The server supports a wide range of USB printers and works with most well known brands.

Compact Build and Setup
Its compact size and low power design make it easy to place in small areas. A simple configuration tool is included for quick setup.

Device Details

- Model: NP330NW
- Connectivity: WiFi 802.11b g n and 10 100 Mbps RJ45 LAN port
- Printer Interface: USB 2.0 host port
- Processor: ARM 9, 300 MHz
- Memory: 64 MB DDR2 RAM and 128 MB NAND flash
- Card Expansion: Supports SD card storage up to 256 GB
- Power Input: DC 5V
- Dimensions: Approximately 53 x 53 x 40 mm
- Operating System: Linux 3.4

Supported Systems

- Windows 2000, 2003, XP, Vista, 7, 8.x, 10, 11
- Mac OS, UNIX, Linux, Android, iOS
