About this product

The Netix NTK-11P-01 11 Piece Network Tool Kit is a practical networking and cable installation kit with a pass through crimping tool, RJ45 and RJ11 master and remote cable tester, wire punching tool, wire stripper, UTP and coaxial cable strippers, screwdrivers, RJ45 connectors and rubber boots. Supplied in a black tool bag with a retail box, it is suited to network technicians, installers and DIY cable termination tasks. Buy now from our site for a convenient network cabling solution.

Overview Summary

Netix NTK-11P-01 11 Piece Network Tool Kit provides a selection of essential tools and accessories for network cable preparation, termination and testing. The kit includes a pass through crimping tool for RJ45 and RJ11 connectors, an RJ45 and RJ11 master and remote cable tester, a wire punching tool, wire stripper, UTP cable stripper and coaxial cable stripper.

The kit also includes a star screwdriver, flat screwdriver, 20 x RJ45 rubber boots and 20 x RJ45 connectors. A black tool bag keeps the tools together for convenient storage and transport, making the kit suitable for network installation, maintenance and general cable work.

Performance tier: Professional network cabling toolkit

Uses: Network cable termination, RJ45 connector installation, RJ11 connector work, cable testing, wire punching, UTP cable preparation, coaxial cable preparation, network maintenance

Overview

The Netix 11 Piece Network Tool Kit is a compact, all-in-one solution for installing, testing, and maintaining Ethernet and telephone cabling. It includes a pass-through crimping tool, master and remote RJ45/RJ11 cable tester, wire punch-down and stripping tools, screwdrivers, plus 20 RJ45 connectors and 20 rubber boots, all stored in a durable black tool bag. Ideal for technicians and DIY users working with Cat5/Cat5e/Cat6 UTP and coaxial cables in home, office, or server-room environments.

Description

The Netix NTK-11P-01 is an 11 piece network tool kit designed for common network cabling and cable preparation tasks. It combines cable termination, testing, stripping and punching tools in one kit, providing a practical selection for technicians and installers working with network and telephone cabling.

The pass through crimping tool is supplied for RJ45 and RJ11 connector work, while the master and remote cable tester provides a way to test compatible RJ45 and RJ11 cable connections. The wire punching tool supports cable termination tasks, and the wire stripper provides a dedicated option for preparing wires.

For cable preparation, the kit includes both a UTP cable stripper and a coaxial cable stripper. Two screwdrivers, including a star screwdriver and a flat screwdriver, add general-purpose tools for installation and maintenance work.

The accessory selection includes 20 x RJ45 rubber boots and 20 x RJ45 connectors, allowing the kit to be used for connector installation tasks. The included black tool bag provides a dedicated way to store and carry the kit, while the retail box provides the original product packaging.
