

NTX-RM-FAN

Netix Server Rack Fan

Product Overview

Netix Server Rack Fan, Rack-mounted cooling fan; 19-inch compatible; 150 CFM airflow; 12V DC; low-noise 35 dB; energy-efficient; durable design; compact installation; weight 0.8 kg

Specifications

About this product

The Netix Server Rack Fan is a high-performance cooling solution designed for server cabinets and IT enclosures. Engineered for continuous operation, it efficiently reduces heat buildup, ensures stable airflow, and extends the lifespan of critical hardware. Compact, durable, and quiet, it is an essential component for professional server environments.

Overview Summary

Product:Netix Server Rack Fan

The Netix Server Rack Fan provides reliable and efficient cooling for server racks, networking cabinets, and data centers. Its robust design ensures consistent airflow while maintaining low noise levels, making it ideal for continuous operation in demanding IT environments. The fan is easy to install and compatible with standard 19-inch server racks.

Built from durable materials, this fan offers long-term reliability, helping prevent overheating and reducing potential downtime. Its compact design allows for flexible installation, while the energy-efficient motor minimizes power consumption without compromising performance.

Performance tier:Professional / Enterprise

Uses:Server racks, network cabinets, data centers, IT enclosures, electronic equipment cooling

Description

The Netix Server Rack Fan is designed to provide optimal cooling for professional IT equipment. Its compact form factor allows for easy integration into standard server racks, while the quiet operation ensures minimal disruption in office or data center environments. The fan features a durable construction with high-quality blades and a reliable motor to sustain continuous operation under demanding conditions. This fan enhances airflow circulation, prevents overheating, and ensures the efficient performance of all connected hardware.

Features

- High-efficiency airflow design for maximum cooling performance
- Durable construction for long-term, continuous use
- Low-noise operation suitable for office and data center environments
- Compact 19-inch rack mount compatibility
- Energy-efficient motor to reduce power consumption
- Easy installation with standard mounting hardware
- Reliable cooling to prevent hardware overheating and downtime

What's in the Box

- 1 x Netix Server Rack Fan unit
- Mounting screws and brackets
- Installation manual

Specifications

- Type: Rack-mounted cooling fan
- Dimensions: 19-inch standard rack width
- Voltage: 12V DC
- Airflow: 150 CFM (Cubic Feet per Minute)
- Noise level: 35 dB
- Fan speed: 1200 RPM
- Material: High-quality ABS plastic with metal reinforcements
- Power consumption: 15W
- Operating temperature: 0degreesC - 50degreesC
- Weight: 0.8 kg
- Compatibility: Standard 19-inch server racks and network cabinets

FAQ

What type of server racks is the Netix Server Rack Fan compatible with?

The Netix Server Rack Fan is compatible with standard 19-inch server racks and network cabinets commonly used in professional IT environments.

How much airflow does the fan provide?

The fan delivers an airflow of 150 CFM, ensuring effective cooling for all connected hardware and preventing overheating.

Is the fan suitable for continuous operation?

Yes, the fan is designed for continuous use, featuring a durable motor and high-quality blades to sustain long-term operation in demanding environments.

How noisy is the Netix Server Rack Fan?

The fan operates at a low noise level of 35 dB, making it suitable for office spaces and data centers where minimal noise is preferred.

What is included in the package?

The package includes 1 x Netix Server Rack Fan unit, mounting screws and brackets, and an installation manual for easy
