

P500A-G-WT

Aerocool P500A White Mid Tower ATX Case

Product Overview

Aerocool P500A White Mid Tower ATX Case, Includes 4x 120mm ARGB fan, 4 port ARGB control Hub, 1 3.5" Drive bays, 3x 2.5" Drive bays, 7 Expansion slots, Supports GPU up to 420mm, Supports CPU Cooler up to 180mm, Up to 280mm Power Supply, I/O Ports - 1x USB 3.2 Gen 2x2 Type-C / 2x USB 3.2 Gen 1 Type-A / HD Audio & Mic, 30mm internal Cable Management depth

Specifications

Overview Summary:

The Aerocool P500A White Mid Tower ATX Case is built for PC enthusiasts who want powerful cooling, clean cable management, and striking design in one chassis. With four pre-installed 120mm ARGB fans, support for up to nine fans in total, and room for GPUs up to 420mm, this case is ready for high-performance gaming and productivity systems. Dual curved glass panels provide a panoramic view of your components, making it perfect for showcase builds.

Designed for easy installation and maintenance, the P500A features removable panels, dust filters, and a GPU support bracket for added stability. Whether you're upgrading or building from scratch, this versatile mid tower delivers the space and airflow you need. Order online in South Africa today and buy now to start your next PC build with confidence.

Performance tier:High-performance

Uses:Gaming PC builds, content creation systems, high-end desktop setups, custom RGB builds, workstation PCs

Overview:

Aerocool P500A White Mid Tower ATX Case with ARGB Fans and Panoramic Glass

The Aerocool P500A White Mid Tower ATX Case is designed for PC builders who want powerful airflow, modern aesthetics, and seamless cable management in one refined chassis. Equipped with four 120mm ARGB fans and a 4 port ARGB control hub, this mid tower case delivers vibrant lighting and efficient cooling straight out of the box. With support for large graphics cards up to 420mm, CPU coolers up to 180mm, and ATX power supplies up to 280mm, it is built to handle high performance gaming and creator systems with ease.

Description:

The Aerocool P500A White offers a spacious 49L interior with support for ATX, Micro ATX, and Mini ITX motherboards. It includes four pre installed 120mm ARGB PWM fans and a dedicated ARGB hub for synchronized lighting control. Dual curved tempered glass panels provide a wide 270 degree panoramic view, while support for up to nine total fans ensures excellent airflow potential. With 30mm cable management depth, removable dust filters, a reinforced GPU support bracket, and modern front I O including USB 3.2 Gen 2x2 Type C, this case combines clean design, cooling efficiency, and builder friendly functionality.

Internal cable management depth: 30mm

The Aerocool P500A White Mid Tower ATX Case delivers a balance of airflow performance, panoramic design, and modern connectivity. Whether you are building a powerful gaming PC or a clean professional workstation, it provides the space,

cooling support, and visual impact needed for a standout system.

Features:

Panoramic Design with Dual Curved Glass

The P500A stands out with its curved tempered glass front and side panels, creating a seamless panoramic display for your components. The 270 degree viewing angle is ideal for showcasing RGB builds, custom cooling setups, and premium hardware.

Its clean white finish enhances modern gaming setups and workstation builds alike, blending aesthetics with practical airflow engineering.

Built for Clean Cable Management

Designed to support mainstream BTF reverse connector motherboards, the P500A keeps cables routed behind the motherboard tray for a clutter free interior. With 30mm of internal cable management depth, builders have more room to organize cables efficiently, improving both airflow and overall presentation.

An airflow optimized PSU shroud further enhances internal neatness while directing cool air where it is needed most.

Advanced Cooling Potential for High Performance Systems

This mid tower ATX case is engineered to support serious cooling setups. Out of the box, it includes:

- 3x 120mm reversed ARGB PWM fans on the side
- 1x 120mm ARGB PWM fan at the rear
- 4 port ARGB control hub for synchronized lighting

In total, the chassis supports up to nine fans, giving you the flexibility to expand cooling as your system demands grow.

Cooling layout support includes:

- Side: up to 3x 120mm
- Top: up to 3x 120mm or 2x 140mm
- PSU shroud: up to 2x 120mm
- Rear: 1x 120mm or 1x 140mm

For liquid cooling enthusiasts, the top panel supports 120mm, 140mm, 240mm, 280mm, and 360mm radiators.

Secure GPU Support for Large Graphics Cards

Heavy graphics cards are safely supported thanks to the adjustable GPU support bracket. This prevents sag over time and helps protect your investment, especially in high end gaming builds.

The case supports GPUs up to 420mm in length without a front right radiator installed, giving you compatibility with most flagship graphics cards on the market.

Dust Protection and Easy Maintenance

Removable nylon dust filters on the top and bottom help keep internal components cleaner for longer. The front, top, and both side panels are tool free and removable, making upgrades and routine cleaning simple and efficient.

Storage and Expansion Flexibility

The Aerocool P500A offers practical drive mounting options without overcrowding the interior:

- 1x 3.5 inch drive bay (configurable)
- Up to 3x 2.5 inch drive bays (flexible combinations supported)
- 7 expansion slots for graphics and add on cards

This layout allows you to balance SSD speed and HDD capacity according to your needs.

Connectivity and Compatibility

Front panel connectivity is modern and ready for high speed peripherals:

- 1x USB 3.2 Gen 2x2 Type C
- 2x USB 3.2 Gen 1 Type A
- HD Audio and Mic ports

Motherboard support includes ATX, Micro ATX, and Mini ITX, while the chassis accommodates ATX power supplies up to 280mm including cables.

Technical Details at a Glance

- Case type: Mid Tower
- Color options: Black or White
- Body material: SPCC steel
- Steel thickness: 0.6 to 0.8mm
- Internal dimensions: 285 x 380 x 420mm
- Overall dimensions: 460 x 235 x 480mm
- Capacity: 49L
- CPU cooler clearance: up to 180mm
- GPU clearance: up to 420mm
- Internal cable management depth: 30mm

The Aerocool P500A White Mid Tower ATX Case delivers a balance of airflow performance, panoramic design, and modern connectivity. Whether you are building a powerful gaming PC or a clean professional workstation, it provides the space, cooling support, and visual impact needed for a standout system.

Specifications	
Product Code	P500A-G-WT
Model	ACL-P500A-BK-FRPB / ACL-P500A-WT-FRPW
Case Type	Mid Tower
Color	Black, White
Body Material	SPCC
Steel Thickness	0.6~0.8mm
Motherboards	ATX/Micro ATX/Mini-ITX
Case Dimensions (Internal)	285 x 380 x 420 mm (W x H x D)
Case Dimensions (Overall)	460 x 235 x 480mm (D x W x H)
Capacity	49L
5.25" Drive Bays	N/A
3.5" Drive Bays	1 Max. (2 x 3.5"/1 x 2.5" or 1 x 3.5"/2 x 2.5")

ComX Computers

Product Specification Sheet

2.5" Drive Bays	3 Max. (3 x 2.5" or 2 x 3.5"/1 x 2.5" or 1 x 3.5"/2 x 2.5")
Expansion Slots	7
GPU Clearance	Supports GPU up to 420mm (W/O radiator in the front-right position)
CPU Cooler Clearance	Supports CPU cooler up to 180mm
Air Cooling	Side: 120mm x 3 (Max.)
	(3x 120mm Reversed ARGB PWM Fan included)
	Top: 120mm x 3 or 140mm x 2(Max.)
	Power Supply Shroud: 120mm x 2 (Max.)
	Rear: 120mm x 1 or 140mm x 1
	(1x 120mm ARGB PWM Fan included)
Liquid Cooling	Side:N/A
	Top: 120/140/240/280/360 Radiator (Optional)
I/O Ports	USB3.2 Gen 2 x 2 Type-C x 1 , USB3.2 Gen 1 Type -A x 2 , HD Audio & Mic.
Internal Cable Management Depth	30mm
Power Supply	ATX PSU (Including cables, up to 280mm) (Optional)
