P501 ROG GLADIUS

Asus P501 ROG Gladius Ergonomic 6400dpi Professional Gaming Mouse

Product Overview

Asus P501 ROG Gladius Ergonomic 6400dpi Professional Gaming Mouse with customizable click resistance

Specifications

Overview:

ROG Gladius is an optical wired gaming mouse engineered with perfect right-hand ergonomics for first-person shooter (FPS) mastery! Smooth-touch materials stay cool in your hand and high-quality Mayan-patterned rubber secures your grip. With exclusive switch socket design for customizable click resistance, two-level DPI switch, 'slide-to-press' side switches and a 6400dpi optical sensor that tracks up to 200 inches per second and 50g acceleration, the battlefield is at your mercy. Detach the cable for carrying around - lock and load!

Features:

Right-handed comfort crafted by FPS masters!
World top pro gamers involved in design stage, back and forth to ensure the best ergonomics! The fine-tuned curves make Gladius the perfect fit for all grip-types

Maximum comfort for even the longest battles

- 2 'slide-to-press' programmable thumb buttons with a specially engineered shape that lets you slide your thumb to trigger a press
- Solid left and right buttons, purposely separated from the mouse body for exceptional responsiveness
- Scroll wheel with an Alps® encoder for a positive stepped action
- 6 programmable buttons
- Specially-designed micro-USB cable prevents the cable dragging on desk
- Special steel-grey coating to minimize sweat and stickiness
- Two-sided Mayan-patterned rubber panels ensure the perfect grip

The DPI clutch enables instant switching between two sensitivity levels:

- Standard speed for everyday gaming
- Extra-low speed for better aiming and accurate sniping

Mouse buttons that won't let you down
Gladius is manufactured with high-quality Omron® mouse switches that are good for at least 20-million presses, so you'll enjoy accurate clicks from buttons that just keep going. We even include two additional Japanese-made Omron switches that offer different click resistance - so Gladius responds just the way you desire.

Instant upgrades for customized victories
Forget soldering hassles when changing mouse switches, as ROG's exclusive socket design means you pick and fit your perfect click resistance and recoil with one simple push*

Bring your winning gear everywhere
Gladius comes with two USB cables. Leave the 2-meter cable on your desk for convenience and carry the 1-meter travel cable to LAN parties or internet cafés - it takes just one touch to detach either cable!

Shape and store your profiles
Gladius has built-in flash memory to store your favorite profile, so it's always by your side. It also features the innovative Armoury software - allowing you to create, customize, and store unlimited profiles on your PC!

Calibrate to conquer
The Gladius software includes an intelligent surface-calibration tool for pixel-perfect precision. Gladius analyzes and learns the surface characteristics to hone the sensor's accuracy - and that means even better in-game responsiveness!
