P504 ROG GLADIUS II ORIGIN

Asus P504 ROG Gladius II Origin Ergonomic Wired Optical Gaming Mouse optimized for FPS

Product Overview

Asus P504 ROG Gladius II Origin Ergonomic Wired Optical Gaming Mouse optimized for FPS, featuring Aura Sync

Specifications

Overview:

Get ready to lock your target and embrace victory with the ROG Gladius II Origin optical gaming mouse, the third in the Gladius family. The Gladius II Origin features the PixArt PMW3360 Optical Sensor (12000 DPI) for fast response and precise control, ergonomic right-handed design to ensure you stay comfortable during extended gaming sessions and Aura Sync lighting technology to outshine the competition.

Features:

Gaming-grade optical sensor
Every strike is critical. At the heart of ROG Gladius II Origin is a PixArt PMW3360 optical sensor that provides you with the accuracy and precision needed to take down the opposition.

Exclusive Push-Fit Switch Socket Design
ROG Gladius II Origin features the ROG exclusive push-fit switch socket design that allows you to easily change switches to vary click resistance. The option of replacing worn or broken switches also extends the lifespan of your mouse.

AURA SYNC LIGHTING
ROG Gladius II Origin is designed to dominate - and it looks the part with aggressive aesthetics and ASUS Aura RGB lighting technology. With six customizable pre-set light effects and incredible performance, the Gladius II Origin is primed for battle!

Perfect Synchronization
Achieve perfect RGB lighting synchronization across your Aura Sync-enabled products to complete the look of your battle station. You can sync lighting effects to in-game action, music, and more!

Detachable Cable
ROG Gladius II Origin has a detachable cable design and comes with two types of cables and a ROG pouch, so you don't have to pack your cable whenever you want to move - just leave one on your desk and the other in the ROG pouch, detach your mouse, and get going!

ROG Armoury
The intuitive ROG Armoury software lets you easily adjust settings to suit your gaming style. Customize lighting effects, adjust performance and surface calibration settings, program and map buttons, create profiles and more.

50-million-click switches
Quality Omron mouse switches that are built to last

Separate button design
Separate button design requires less actuation force, delivering faster responses

Rubber grips
Rubber side panels with Mayan-inspired design ensure a secure and comfortable grip

DPI switch
Dedicated button for on-the-fly sensitivity adjustment

Detachable cable
Detachable micro-USB cable with a quick-release switch

Scroll wheel with Alps® encoder
Get immediate and crisp responsiveness via the scroll wheel that includes an integrated Alps encoder
