PCD-07002-0K

Molex patch cord Cat 6A shielded LS0H 568A/B - 3 metre Yellow

Product Overview

Molex patch cord Cat 6A shielded LS0H 568A/B - 3 metre Yellow

Specifications

Overview Summary:

Upgrade your network with the Molex PowerCat 6A Shielded Patch Cord in yellow, designed for fast and reliable data transfer. This 3-metre LS0H-rated patch cord supports 10GBASE-T speeds while maintaining backward compatibility with 10/100/1000BASE-T networks. Ideal for both home and office setups, it ensures stable connections and minimal signal interference. Buy now to enhance your networking performance.

Perfect for professional and personal use, this Molex patch cord features high-quality 26 AWG stranded copper wire, preterminated RJ45 plugs, and slim anti-snag strain relief boots for easy installation. Shop now to secure a durable and efficient solution for your networking needs.

Performance tier: High-performance

Uses: Network connectivity, data transfer, server connections, office networks, home networks

Overview:

Molex Cat 6A Shielded Patch Cord - 3 Metre Yellow
Molex PowerCat 6A Shielded Patch Cords are engineered to deliver reliable high-speed network performance across modern IT infrastructures. Designed to support 10GBASE-T networks while remaining compatible with 10/100/1000BASE-T systems, these patch cords are an essential part of any high-performance network setup. The 3-metre yellow cable is crafted from premium four-pair 26 AWG stranded copper, ensuring consistent signal integrity and minimal interference. Its design includes anti-snag slim strain relief boots for easy installation and durability, making it a versatile solution for both commercial and residential environments.

Description:

The Molex Cat 6A Shielded Patch Cord provides superior network connectivity and durability. Constructed with four-pair 26

AWG stranded copper, it supports ultra-fast 10G data transmission and maintains performance across 10/100/1000BASE-T networks. The LS0H jacket enhances safety by limiting smoke and halogen emissions, while the preterminated RJ45 plugs simplify installation. Anti-snag slim strain relief boots protect the connectors and reduce cable stress, and the 3-metre yellow design helps with easy identification in structured cabling setups. Ideal for data centers, offices, and professional networking environments.

Features:

High-Speed Network Performance
This patch cord ensures consistent 10GBASE-T speeds, making it suitable for demanding applications such as video streaming, cloud computing, and high-speed data transfer. Its backward compatibility allows seamless integration into existing 10/100/1000BASE-T networks without compromising reliability.

Durable and Safe Construction
Crafted from high-quality copper, the cord offers excellent signal quality and reduced crosstalk. The LS0H jacket not only provides flexibility and durability but also meets safety standards by limiting harmful smoke and halogen emissions during use.

Easy Installation and Organization
Equipped with preterminated RJ45 plugs and slim anti-snag boots, the patch cord is simple to connect and reduces strain on cables and connectors. The yellow color helps quickly identify network lines in complex setups.

Versatile Applications
Suitable for data centers, office networks, server rooms, and other high-performance networking environments, this patch cord ensures reliable connectivity wherever it is deployed.
