Molex patch cord Cat 6A shielded LS0H 568A/B - 5 metre grey

Product Overview

Molex patch cord Cat 6A shielded LS0H 568A/B - 5 metre grey

Specifications

Overview Summary:

The Molex Cat 6A shielded LS0H patch cord 5 metre grey delivers reliable high-speed network connections for homes and businesses across South Africa. Built to support 10 GBASE-T and backward compatible with 10/100/1000 Mbps networks, this pre-terminated RJ45 cable features high-quality four pair 26 AWG copper with shielding and slim anti-snag boots for easy installation. Shop now to upgrade your network with performance you can trust.

Ideal for connecting switches, routers, patch panels and other Ethernet devices, this Cat 6A cable ensures stable data transmission and reduced interference. Buy now and enjoy fast, dependable wired connectivity for offices, server rooms, or home networks.

Performance tier: Premium networking cable

Uses:network connections, high-speed Ethernet, server racks, office LANs, data transfer, PoE devices

Overview:

High-Performance Cat 6A Shielded Patch Cord for Reliable Networking
Molex PowerCat 6A Shielded Patch Cords deliver reliable, high-speed connectivity for modern network setups. Designed to support 10GBASE-T networks while remaining compatible with 10/100/1000BASE-T systems, these patch cords ensure seamless data transfer and network performance. Crafted from premium materials, they provide durability and consistent signal quality across demanding environments. Available in multiple lengths and colors, they are ideal for both commercial and home networking applications.

Description:

This Molex PowerCat 6A Shielded Patch Cord is made from high-quality four-pair 26 AWG stranded copper wire, offering excellent signal integrity for high-speed network connections. The cord comes preterminated with RJ45 connectors and

features anti-snag slim strain relief boots for easy installation and durability. With its LS0H low-smoke, zero-halogen jacket, it is suitable for use in enclosed spaces and ensures safety in case of fire. The 5-metre grey length provides flexibility in cabling setups while maintaining organized, professional network installations.

Features:

Optimized for 10G Networks and Backward Compatibility
Built to support high-speed 10GBASE-T networks, this patch cord ensures fast and reliable data transmission. It is fully backward compatible with standard 10/100/1000BASE-T networks, making it a versatile solution for existing infrastructures.

Durable Design for Long-Lasting Performance
The cord uses 26 AWG stranded copper wire for maximum flexibility and signal integrity. The LS0H jacket minimizes smoke and halogen emission, providing safe and long-lasting use in both commercial and residential environments.

Convenient Installation and Organization
Slim strain relief boots prevent snagging during installation, while preterminated RJ45 connectors allow for quick plug-and-play setup. Multiple color options and lengths make network management simple and visually organized.

Versatile Applications
Ideal for office networks, data centers, and home setups, this patch cord ensures consistent performance and reliable connections for computers, servers, switches, and other networked devices.
