Buy now from our online store in South Africa for dependable POS performance and streamlined checkout operations.

Overview Summary

HP FK218AA POS Keyboard MSR with Built-in Touchpad

The HP FK218AA is a compact point of sale keyboard designed for commercial environments where speed, durability, and accuracy are essential. It combines a full QWERTY keyboard layout with an integrated touchpad and a magnetic stripe reader, making it a complete input solution for retail checkout systems.

Built for efficiency, this POS keyboard includes programmable keys that allow businesses to customize workflows for faster transaction handling. Its integrated MSR supports secure card swiping, helping streamline payment processing while maintaining operational reliability in high-volume environments.

Designed with a durable, space-saving form factor, the keyboard is ideal for counters with limited workspace. Its USB connectivity ensures simple plug-and-play installation with compatible POS systems.

Performance tier: Professional POS hardware

Uses: retail checkout systems, hospitality POS stations, payment processing, inventory management terminals, ticketing systems

Overview

ComX Computers

Product Specification Sheet

Featuring a full QWERTY layout in a compact 14-inch form factor, the HP USB POS Keyboard offers optimum space efficiency in retail environments.

Description

The HP FK218AA POS Keyboard is engineered for demanding retail and service environments that require reliable transaction input hardware. Its integrated magnetic stripe reader enables secure card processing, while the built-in touchpad replaces the need for a separate mouse, improving counter space efficiency.

The keyboard features a programmable layout with multiple configurable keys, allowing businesses to assign shortcuts for common POS functions such as sales, refunds, and inventory lookups. The durable construction is designed to withstand frequent daily use in busy checkout environments.

With USB plug-and-play connectivity, this POS keyboard integrates easily into existing systems, making it suitable for both upgrades and new POS installations.

Features

Key features of the HP FK218AA POS Keyboard include:

- Integrated magnetic stripe reader for secure card transactions
- Built-in touchpad for mouse-free navigation
- Full QWERTY layout for efficient data entry
- Programmable function keys for customized POS workflows
- USB plug-and-play connectivity for easy installation
- Compact design to save counter space
- Durable construction for high-volume retail environments

What's in the Box

- HP FK218AA POS Keyboard with Magnetic Stripe Reader
- Integrated touchpad
- USB connection cable (built-in)
- Documentation and setup guide
