Overview:

FSP VITA GM 750W Gold Fully Modular PSU

Built to handle the demanding power requirements of tomorrow, these PSUs support total power excursion as per ATX 3.1 and PCIe Gen 5.1 specifications, ensuring they deliver peak performance for future hardware upgrades. Certified with 80 PLUS Gold efficiency and achieving platinum-level efficiency at typical loads, these power supplies minimise power loss, heat, and noise, offering a cooler and quieter operation.

The advanced LLC resonant-converter topology with synchronous rectification reduces switching losses and keeps the output voltage stable, even under heavy loads, maximising overall system efficiency. The +5V and 3.3V DC to DC circuit design ensures consistent voltage and system stability, while premium 105 degrees C Japanese bulk capacitors provide top-tier reliability and longevity, making them the ideal choice for high-performance PCs. Whether you're a gamer or a power user, these PSUs deliver lasting power and performance you can count on.
