3dconnexion Cad mouse pad - 250x350x2mm

Product Overview

3dconnexion Cad mouse pad - designed for CAD mouse, optimized surface coating with micro-textured finish + non-slip silicone base - 250x350x2mm

Specifications

Features:

The Perfect Blend Of Speed And Precision

The 3Dconnexion CadMouse Pad provides the ideal balance between speed and control thanks to its high-quality micro-textured coating. Tailor made for the 3Dconnexion CadMouse, it enables effortless, precise mouse movement thanks to a perfect equilibrium between static and kinetic friction. That means your mouse moves exactly how you mean it to-every time.

Serious Precision For Serious Professionals

In professional CAD work, there is no room for anything but world-class accuracy. The clean, consistent surface texture of the 3Dconnexion CadMouse Pad enhances its reflective qualities for accurate sensor readings and smooth, precise cursor movement. It's the level of professional-grade precision that engineers, architects and designers deserve.

Stability You Can Rely On

Serious CAD professionals move their mouse hundreds of meters every day. That's why the 3Dconnexion CadMouse Pad's robust three-layer construction features a rigid top plate and silicone base that creates a stable and uniform surface you can rely on, no matter how far or fast you go.

Specification:

- Optimized surface coating
- Micro-textured finish
- Non-slip silicone base

Size & Weight:

- Width: 250 mm
- Length: 350 mm
- Depth: 2.0 mm
- Approximate Weight: 160 g
