Overview:

The development of the Razer Megasoma was driven by a single goal; create a mouse pad that compromises nothing. We combined the best features of a hard and soft mat to create a hybrid of tracking excellence. The result is a pro gamer validated mat that blends the legendary tracking of our hard mats with the comfort and feel of our soft mats.

Constructed from highly durable translucent silicone and accented with a luminous imbedded logo, the Razer Megasoma is the most tracking proficient mouse pad ever created. Nothing compromised; nothing comparable.

Features:

- Hard-Soft Hybrid Mat: The Razer Megasoma is a hybrid of a hard and a soft mouse mat which fuses superior tracking quality and precision of a hard mat with a comfortable feel and an incredibly smooth glide of a soft mat.
- Ultra-durable Gaming Mat: Experience the ultra-durable dent-free surface of an oversized hard mat for wide hand movements, while enjoying the translucent silicone of the Megasoma and its unique luminous logo shining through.
- Maximum Portability: The flexibility of silicone makes the Razer Megasoma extremely portable, letting you roll up and take your game to your favorite LAN sessions.
