Specifications

About this product

The Keychron PR45 Black 80% Silicone Palm Rest is an ergonomic keyboard accessory designed to provide comfortable, cushioned palm support during extended typing and gaming sessions. Made from premium silicone with a soft, non-slip surface, it is designed for 80% tenkeyless keyboards, including the Keychron K8 Max, K8 HE and C1 Pro 8K. Measuring 358 x 79.5 x 18mm and weighing just 300g, this lightweight wrist rest offers a practical addition to your desktop setup. Buy the Keychron PR45 Silicone Palm Rest online in South Africa and enjoy improved comfort at your workstation.

Overview Summary

Keychron PR45 Black 80% Silicone Palm Rest

The Keychron PR45 is a silicone keyboard palm rest designed to complement 80% layout mechanical keyboards. Its soft, cushioned silicone construction provides a comfortable resting surface for your palms and wrists, helping reduce pressure during extended typing, office work and gaming sessions. The black finish offers a clean, professional appearance that complements a wide range of desktop setups.

Designed with a non-slip surface and a supportive structure, the PR45 provides a stable and comfortable resting area in front of your keyboard. Its compact dimensions of 358 x 79.5 x 18mm make it suitable for compatible tenkeyless keyboards, including the Keychron K8 Max, K8 HE and C1 Pro 8K. Weighing approximately 300g, it is easy to reposition and maintain as part of your everyday workstation.

Performance tier: Ergonomic premium keyboard accessory

Uses: Desktop typing, office productivity, mechanical keyboard setups, gaming, programming, extended computer use, workstation comfort

Description

The Keychron PR45 Black 80% Silicone Palm Rest is designed to improve comfort and support when using a compatible mechanical keyboard. Whether you spend your day working with documents, managing spreadsheets, programming or enjoying PC gaming, having a comfortable resting surface for your hands can make your desktop experience more enjoyable.

Constructed from premium silicone, the PR45 offers a soft and cushioned surface for resting your palms while typing. Its non-slip design helps maintain a stable position on your desk, while its supportive structure provides a practical resting area for everyday computer use. The silicone material is also easy to clean, making it suitable for regular use in home and professional environments.

With dimensions of 358 x 79.5 x 18mm, this palm rest is specifically designed for 80% keyboard layouts. It is compatible with selected Keychron keyboards, including the K8 Max, K8 HE and C1 Pro 8K. Its black finish complements mechanical keyboards and creates a coordinated, professional-looking workstation.

Weighing approximately 300g, the Keychron PR45 is lightweight and convenient to reposition when adjusting your desk arrangement. It is a practical accessory for keyboard enthusiasts, office professionals, students and gamers who want additional palm support during extended computer sessions.

Please note that the keyboard is not included. Check your keyboard layout and dimensions before purchasing to ensure compatibility.

Features

The Keychron PR45 combines comfortable silicone construction with a compact design specifically suited to compatible 80% mechanical keyboards.

- Ergonomic palm support: Provides a dedicated resting surface for your palms during extended typing and computer use.
- Premium silicone construction: Soft and cushioned material designed for everyday comfort.

- Keychron compatibility: Suitable for the Keychron K8 Max, K8 HE and C1 Pro 8K.
- Supportive structure: Designed to provide a comfortable and stable palm resting area.
- Easy maintenance: Silicone construction allows convenient cleaning.
- Compact dimensions: Measures 358 x 79.5 x 18mm for a practical desktop footprint.
- Lightweight design: Weighs approximately 300g for convenient repositioning.
- Professional black finish: Complements modern mechanical keyboards and desktop setups.
- Everyday versatility: Suitable for office work, programming, typing and gaming.

A Dedicated Palm Rest for Your 80% Keyboard
The Keychron 80% Silicone Palm Rest - Black is made for typists who want a proper resting surface in front of their compact keyboard. Whether you are working through long documents, spreadsheets and emails or settling in for a session at your desk, this palm rest gives your hands a defined place to sit. It is designed for 80% layout keyboards, so it matches the footprint of the board it sits beside rather than leaving you to improvise with an ill-fitting accessory.

Made to Match Keychron Keyboards
Struggling to find a palm rest that suits a compact 80% board This one is built around that layout and is listed as compatible with the Keychron K8 Max, Keychron K8 HE and Keychron C1 Pro 8K. If you own one of these keyboards, you can pair it with a palm rest from the same brand and keep your desk setup looking consistent. At 35.8 cm in length, it is sized for an 80% layout keyboard.

Silicone Construction in a Clean Black Finish
This palm rest is made from silicone and finished in black, so it blends easily into most desk setups and sits comfortably alongside a dark keyboard. Measuring 35.8 x 7.9 x 1.8 cm, it has a low, slim profile that adds a resting surface without taking over your workspace. At just 0.3 kg, it is light enough to handle, move and reposition when you rearrange your desk. For anyone looking to round out a Keychron 80% keyboard setup, it is a simple and practical keyboard accessory.
