Specifications

Overview:

A high yield single function printer - Perfect for creating high quality, low cost stunning prints of documents and photos at home or in the office.

Features:

Simplicity

Not everybody needs a multi function device, so we've created the PIXMA G1400. This model includes all the great benefits of the PIXMA G Series, and is an easy to use dedicated high yield printer that produces high quality prints.

Pigment black ink & dye colour inks

Improve the quality of your prints with our high quality pigment black ink, to aid you in creating stunningly sharp texts and colour dye inks for gorgeously vibrant images. Also allowing you to enjoy printing borderless 4 x 6" photos in approximately 60 seconds.

Integrated Ink Tanks

PIXMA G Series, has been built with design at its forefront, our front facing ink tanks are easy to replenish making it simple to track ink levels, ensuring that you're never caught off guard. While our compact and sleek designs allows for full integration into a home/office environment.

Reliable Components for High Volume Printing

We've worked to ensure that our printing system remains stable during high volume printing through enhancements in our FINE print head and technology which ensures air does not penetrate into the ink tube system.

Creative Printing

We believe that everyone should be able to create beautiful prints, easily. Our integration of the software 'My Image Garden'

ComX Computers

Product Specification Sheet

makes it simple for you to organise, sort and edit photographs, so you can easily get the prints you need.
