Specifications

Overview:

Designed for those who need to print vibrant posters and point of sale in-house. Create eye-catching posters and display materials with this compact printer that's ideal for all sizes of business. 6-colour LUCIA EX pigment inks, including a red ink that gives you vivid, long-lasting results.

Features:

Vibrant, eye-catching colours

Achieve striking colours every time with 6-colour LUCIA EX ink system. Its red ink faithfully reproduces the reds and oranges you need for your in-store sales posters and point of sale displays, making the iPF6400SE perfect for retailers who need to print on-demand with a low cost of ownership.

Powerful results for long-term display

Make sure your point of sale doesn't lose its visual impact, no matter how long its lifespan. LUCIA EX pigment ink work brilliantly on a wide range of paper types, giving you a durable, cost effective result for mid to long-term display.

Faster printing, less downtime

Get faster results when you need them, with high-speed, economical printing in draft mode. 130ml and 300ml ink tanks ensure productivity even on long print runs. The sub-ink tanks keep the supply going even when the ink has run out, meaning you can replace tanks without having to stop printing.

Easy to install and maintain

Save space with a compact design that's high on features, but low on footprint size. The iPF6400SE's streamlined dimensions make it ideal for small retail stores or offices with limited space.

Ongoing cost savings

Save money as well as time, with a design that's focused on the features you need, not the ones you don't. With six inks, the iPF6400SE keeps operating expenses low while delivering consistently high quality results, ensuring cost savings that keep going as long as your printer does.

No design experience needed

Easily produce a wide range of posters and graphics right out of the box, with the iPF6400SE's powerful poster solutions. PosterArtist Lite enables even novices to create better-looking posters in no time at all, with automatic colour correction and background removal included as standard. If you prefer a more familiar user interface, the print plug-in for Microsoft Office lets you print poster-sized documents and graphics created in Microsoft Word, PowerPoint or Excel.

Direct file printing and file sharing in the cloud

Boost productivity and streamline printing workflows with imagePROGRAF Direct Print & Share, which lets you print PDF/TIF/JPEG files directly without having to go via an application or printer driver. Cloud support allows you to upload and download files for immediate sharing with other locations or multiple sites, with easy access even from mobile devices.
