Overview Summary

The HP LaserJet Enterprise 700 MFP M725dn is a high performance multifunction printer designed for enterprise level document workflows. It combines print, copy, scan, and digital send functionality into one robust device, making it ideal for busy offices that require reliable and continuous output.

With support for large volume printing and an input capacity of up to 4600 sheets, this device is built for efficiency and reduced

downtime. It includes multiple input trays, an automatic document feeder, and Gigabit Ethernet connectivity for seamless integration into business networks.

Security and performance are enhanced through the HP High Performance Secure Hard Disk, ensuring safe handling of sensitive business data. Its A3 printing capability makes it suitable for technical documents, reports, and large format office tasks.

Performance tier: Enterprise High Volume

Uses: Office printing, document scanning, copying, digital document sending, large format printing, enterprise workflows

Overview

Enable large-volume printing on a wide range of paper sizes - up to A3 - with a 4,600-sheet maximum input capacity. Preview and edit scanning jobs; centrally manage printing policies; safeguard sensitive business information.

Description

The HP LaserJet Enterprise 700 MFP M725dn is engineered for high demand business environments where speed, reliability, and volume output are critical. Built for enterprise use, it delivers consistent monochrome printing with strong performance across printing, scanning, copying, and digital sending tasks.

Its robust paper handling system supports multiple input trays and high capacity output, reducing interruptions during large print jobs. The inclusion of a 100 sheet Automatic Document Feeder allows efficient scanning and copying of multi page documents, improving office productivity.

Designed for network integration, the device features Gigabit Ethernet connectivity, enabling fast communication across office systems. Its A3 printing capability supports larger documents, making it suitable for engineering, finance, and administrative departments.
