	Max Load	Max Output
+3.3V	20A	150W
+5V	20A	150W
+12V	83.3A	1000W
-12V	0.3A	3.6W
+5VSB	3A	15W
TOTAL POWER	1000W	

Specifications

Overview:

SKU CP-9020250-EU - RMe Series RM1000e Fully Modular Low-Noise ATX Power Supply

CORSAIR RMe Series Fully Modular Low-Noise Power Supplies with dual 8-pin EPS12V connectors provide quiet, reliable power with 80 PLUS Gold efficiency to a wide variety of PC builds.

Features:

FULLY MODULAR CABLING

Keep cable clutter down by connecting only the cables your system needs and nothing else. Five universal 8-pin connectors can be used with any 8-pin cable, satisfying all the power needs of modern motherboards and GPUs.

TUNED FOR LOW NOISE OPERATION

A 120mm rifle bearing fan with a specially calculated fan curve keeps fan noise down, even when operating at full load.

With Zero RPM Fan Mode for near-silent operation at lower loads.

TECHNOLOGY AND RELIABILITY

For consistent, reliable power and superb electrical performance, each RMe Series power supply features a robust resonant LLC topology with DC-DC conversion and 105 degrees rated industrial-grade capacitors.

With precise timings, RMe supports Modern Standby, ensuring extremely fast wake-from-sleep times and better low-load efficiency.

80 PLUS Gold-Certified

Steady power output at up to 90% efficiency, and Cybenetics Platinum certified for lower power consumption, less noise, and cooler temperatures.
