Corsair BlackK premium individually sleeved flexible paracorded modular cable kit

Product Overview

corsair CP-8920202 black premium individually sleeved flexible paracorded modular cable kit - include 1x 300mm ATX (20+4pin) + 1x 400mm EPS12V(4+4pin) + 2x 400mm PCI-E 8(6+2) pin + 4x SATA(445mm) + 4x 4pin molex(445mm) - for RMX series; RMi series, SF series - shorter cables for compact case

Specifications

About this product

The Corsair CP-8920202 Premium Individually Sleeved Modular Cable Kit is designed for compatible Corsair Type 4 modular power supplies, including selected RMx, RMi and SF Series models. Featuring flexible black paracord sleeving, heatshrink-free connectors and shorter cable lengths for compact PC cases, this premium cable kit helps create a clean, professional build with improved cable management. Buy now from our website for a high quality cable upgrade and quick delivery in South Africa.

Overview Summary

Corsair CP-8920202 Premium Individually Sleeved Modular Cable Kit - Black

The Corsair CP-8920202 is a premium individually sleeved modular PSU cable kit designed for compatible Corsair Type 4 modular power supplies. Each cable features flexible triple-layer paracord sleeving with a heatshrink-free finish, delivering a clean appearance while making cable routing easier inside modern PC builds.

Shorter cable lengths make this kit particularly suitable for compact and small form factor systems where excess cable length can restrict airflow or complicate cable management. The kit includes the essential motherboard, CPU, PCIe, SATA and peripheral power cables required for a neat, organized installation while maintaining full compatibility with supported Corsair RMx, RMi and SF Series power supplies.

Performance tier:Premium enthusiast cable management accessory

Uses:PC building, gaming PCs, workstation builds, compact systems, small form factor PCs, cable management, custom PC aesthetics

Overview

Complement your system with the CORSAIR SF Series(TM) Premium PSU Cable Kit designed for SF Series(TM) PSUs.

Description

The Corsair CP-8920202 Premium Individually Sleeved Cable Kit provides a high quality replacement for the standard modular power supply cables included with compatible Corsair Type 4 power supplies. Designed with premium paracord sleeving that extends the full length of each cable, the kit delivers a cleaner appearance without visible heatshrink tubing while improving cable flexibility.

The shorter cable lengths are optimized for compact and small form factor computer cases, reducing excess cable clutter and simplifying cable routing. This can improve internal airflow while giving custom PC builds a more organized appearance.

The cable kit includes dedicated motherboard, CPU, PCIe, SATA and peripheral power cables for a complete installation. It is compatible with supported Corsair RMx Series, RMi Series and SF Series modular power supplies that use the Corsair Type 4 cable standard.

Features

The premium sleeved cable kit combines improved flexibility with professional cable management for custom desktop PC builds.

- Premium individually sleeved black modular PSU cables
- Flexible triple-layer paracord sleeving
- Heatshrink-free connector design for a cleaner appearance
- Short cable lengths designed for compact PC cases
- Supports compatible Corsair Type 4 modular power supplies
- Compatible with selected Corsair RMx Series, RMi Series and SF Series power supplies
- Improves cable management and internal system appearance
- Flexible construction simplifies cable routing

Clutter-Free PSU Paracord Cables

Complement your system with the CORSAIR SF Series Premium PSU Cable Kit designed for SF Series PSUs. Free of heat shrink tubing and exposed wires, the paracord sleeves cover the entire length of the cables, providing a modern and streamlined design. The paracord material allows for easy installation and cable routing, especially in small form factor systems, where space is limited.

What's in the Box

- 1 x 300mm 20+4-pin ATX modular cable
- 1 x 400mm 4+4-pin EPS12V modular cable
- 2 x 400mm PCIe 6+2-pin modular cables
- 1 x 445mm SATA modular cable with 4 x SATA power connectors
- 1 x 445mm peripheral modular cable with 4 x Molex connectors

Specifications

- Brand: Corsair
- Model: CP-8920202
- Product type: Premium modular PSU cable kit
- Colour: Black
- Cable type: Individually sleeved paracord
- Connector finish: Heatshrink-free
- Cable standard: Corsair Type 4 Gen 3
- 24-pin ATX cable: 1 x 300mm
- EPS12V 4+4-pin cable: 1 x 400mm

ComX Computers

Product Specification Sheet

- PCIe 6+2-pin cable: 2 x 400mm
- SATA power cable: 1 x 445mm with 4 x SATA connectors
- Peripheral cable: 1 x 445mm with 4 x 4-pin Molex connectors
- Compatible PSU series: Corsair RMx Series, RMi Series, SF Series with Type 4 connectors
- Designed for compact PC cases: Yes
- Product weight: 0.53kg

FAQ

What power supplies are compatible with the Corsair CP-8920202?

This cable kit is designed for compatible Corsair Type 4 modular power supplies, including supported RMx Series, RMi Series and SF Series models.

Are these extension cables?

No. These are direct replacement modular power supply cables that connect directly to compatible Corsair modular power supplies.

Why are the cables shorter?

The shorter cable lengths are intended for compact and small form factor computer cases, helping reduce cable clutter and improving cable management.

Do the cables use individually sleeved construction?

Yes. Each cable uses premium individually sleeved flexible paracord construction with a heatshrink-free finish for a clean appearance.

Can this cable kit improve airflow inside a PC?

Better cable routing and reduced excess cable length can help create a tidier interior, making cable management easier and potentially improving airflow.
