Specifications

Overview Summary:

Upgrade your home simulator with the PXN GT ONE 300mm Racing Steering Wheel, now available for South African sim racers who demand precision and durability. Designed specifically to fit the VD4, VD6, VD10, and Z ES wheelbases, this black rim delivers a full-size racing feel that enhances every corner you take on PC. With its USB coiled cable included and support for Windows 7 through 11, setting up your rig is straightforward and reliable.

Take control of the track with a purpose-built accessory that prioritizes lap times and racecraft over setup headaches. Whether you are chasing leaderboard scores or enjoying casual weekend races, this steering wheel offers the stability and responsiveness you need to succeed on the virtual circuit. Buy now to transform your driving experience today.

Performance tier:High

Uses:Sim racing, PC gaming, lap time practice, vehicle simulation, track day training

Overview:

PXN GT ONE 300mm Racing Steering Wheel Overview:

Elevate your sim racing experience with the PXN GT ONE, a dedicated 300mm racing steering wheel designed specifically for enthusiasts looking to upgrade their cockpit setup. This rim is engineered to fit seamlessly with popular PXN wheelbases including the VD4, VD6, VD10, and Z ES, ensuring you have a proper full-size feel when the lights go out. Finished in a sleek black design, it allows drivers to focus on lap times and racecraft without worrying about compatibility issues or makeshift workarounds.

Description:

The PXN GT ONE (Part Number: PXN-WGTL) transforms your virtual driving rig into a professional-grade simulator. It offers the tactile response of a real racing wheel, complete with an included USB coiled cable for clean management and optional quick-release compatibility for rapid pit stops. Whether you are competing on PC platforms or just enjoying weekend casual racing, this steering wheel delivers precision control and durability.

Features:

Seamless Compatibility with Your Setup

This rim is explicitly listed as a match for the VD4, VD6, VD10, and Z ES wheelbases, making it an ideal choice for South African sim racers looking to expand their existing collection. It connects via a standard USB link, ensuring straightforward integration without complex drivers or software conflicts. For those who frequently swap wheels during practice sessions, the system supports the optional Z QS quick release mechanism which accommodates 50-70mm bolt hole spacing.

The GT ONE is built for PC racing enthusiasts running Windows operating systems, offering native support for Windows 7, 8, 10, and 11. You can plug in the unit, configure your controls quickly, and immediately start chasing apexes on the track. Its compact physical profile measures 30.1 x 16 x 11.1 cm and weighs just 1.5 kg, making it easy to handle, fit into tight cockpit spaces, or swap out when needed.

PXN GT ONE Key Specifications

- Gear Type: Racing Wheel designed for high-fidelity sim racing
- Platform Compatibility: PC (Windows 7, 8, 10, and 11)
- Mounting Interface: Standard USB connection to third-party wheelbases

ComX Computers

Product Specification Sheet

- Quick Release Support: Compatible with Z QS quick release (50-70mm bolt spacing)
- Dimensions: 30.1 x 16 x 11.1 cm
