

Q0M-M1

KeyChron Q0 Max QMK Gateron Jupiter Red RGB Wireless custom number pad Carbon Black

Product Overview

KeyChron Q0 Max QMK Gateron Jupiter Red RGB Wireless custom number pad Carbon Black, Gateron Jupiter Red Switch Type, Tri-mode connection - 2.4GHz / Bluetooth 5.1 / Type-C Wired, South-Facing RGB backlighting, Hot-Swappable Switches, Screw-in PCB stabilizer, 1800mAh Rechargeable Li-Polymer Battery

Specifications

Overview Summary:

The Keychron Q0 Max is a premium custom wireless numpad built for professionals, creators and keyboard enthusiasts who want exceptional control and flexibility. Featuring tri-mode connectivity, hot-swappable Gateron Jupiter Red switches, full QMK/VIA programmability, RGB lighting and a durable aluminium body, it delivers a premium typing experience for daily productivity. Buy now and upgrade your workspace with a high-performance custom numpad.

Designed for seamless use with Windows, macOS and Linux, the Q0 Max makes it easy to customise shortcuts, macros and workflows to match your needs. Its rechargeable battery, premium PBT keycaps and compact design make it an excellent addition to any desktop setup. Shop now and enjoy reliable wireless performance with advanced customisation.

Performance tier:Premium

Uses:Data entry, accounting, spreadsheet work, productivity, custom macro programming, office use, creative workflows, gaming shortcuts

Overview:

Keychron Q0 Max Wireless Custom Numpad with Gateron Jupiter Red Switches

The Keychron Q0 Max QMK Gateron Jupiter Red RGB Wireless Custom Number Pad is designed for users who want a premium mechanical numpad with advanced customisation, flexible connectivity, and a durable aluminium construction. Combining wireless convenience with enthusiast-grade features, this compact number pad is ideal for professionals, creators, gamers, and anyone looking to enhance their desktop workflow.

Description:

The Keychron Q0 Max brings a full custom mechanical keyboard experience to a dedicated numpad layout. With tri-mode connectivity, hot-swappable Gateron Jupiter Red switches, QMK and VIA programmability, RGB backlighting, and a solid aluminium body, it delivers a refined typing experience with extensive personalisation options. The premium build quality, acoustic tuning layers, and long-lasting rechargeable battery make it a powerful addition to modern workstations and gaming setups.

Features:

Premium Custom Numpad Built for Productivity and Control

The Keychron Q0 Max QMK is a high-end wireless mechanical number pad created for users who need more control over shortcuts, calculations, data entry, and custom workflows. Featuring the SKU Q0M-M1, this Carbon Black numpad combines a compact layout with professional-level customisation through QMK and VIA firmware support.

Its aluminium body, steel plate construction, and screw-in PCB stabilisers provide a stable typing platform with reduced vibration and improved key consistency. Whether used alongside a laptop, desktop PC, or custom keyboard setup, the Q0 Max adds a premium mechanical typing experience where a standard numeric keypad cannot.

Flexible Tri-mode Wireless Connectivity

The Q0 Max offers three connection methods, allowing users to switch easily between multiple devices and setups. Use the included 2.4GHz wireless receiver for a low-latency connection, Bluetooth 5.1 for convenient multi-device pairing, or USB Type-C wired mode for continuous power and maximum reliability.

Key connectivity options include:

ComX Computers

Product Specification Sheet

- 2.4GHz wireless connection for responsive performance
- Bluetooth 5.1 support for flexible device pairing
- USB Type-C wired connection for stable desktop use
- Compatibility with Windows, macOS, and Linux systems

The built-in 1800mAh rechargeable Li-polymer battery provides up to 50 hours of wireless working time with RGB lighting at the lowest brightness setting, making it suitable for extended work sessions.

Custom Mechanical Typing with Gateron Jupiter Red Switches

The Q0 Max comes equipped with Gateron Jupiter Red switches, offering a smooth linear typing feel with consistent key presses and no audible click. The hot-swappable PCB allows switches to be replaced easily without soldering, giving users the freedom to customise the typing experience over time.

The keyboard uses durable KSA double-shot PBT keycaps designed to resist wear and shine, helping maintain a premium look even after years of use. South-facing RGB lighting provides clear illumination while supporting a wide range of custom lighting effects.

Advanced QMK and VIA Customisation

Built for enthusiasts and productivity-focused users, the Keychron Q0 Max supports full QMK and VIA programming. This allows users to remap keys, create macros, adjust shortcuts, and configure controls directly to their preferred workflow.

Additional controls include:

- Five dedicated macro keys labelled M1 to M5 for custom commands
- Rotary knob for media control, volume adjustment, or programmable functions
- Per-key remapping through QMK and VIA software
- N-Key Rollover support in both wireless and wired modes

Premium Aluminium Build with Enhanced Acoustic Design

The Q0 Max is constructed with a premium aluminium chassis designed for strength, stability, and a refined appearance. The 5.2 degree typing angle provides a comfortable typing position, while the steel plate and screw-in PCB stabilisers create a solid and consistent feel.

Multiple internal dampening layers help reduce unwanted noise and improve acoustic performance, including:

- Sound-absorbing foam
- IXPE foam layer
- PET film insulation layer
- Latex bottom pad
- Bottom case acoustic foam with PET film layer

This layered construction produces a deeper sound profile and a more satisfying mechanical typing experience.

Keychron Q0 Max Key Features:

- Tri-mode connection with 2.4GHz wireless, Bluetooth 5.1, and USB Type-C wired support
- Gateron Jupiter Red linear mechanical switches
- Hot-swappable switches for easy customisation
- Full QMK and VIA firmware support
- Five programmable macro keys and rotary knob control
- 1800mAh rechargeable Li-polymer battery with up to 50 hours wireless use
- Durable KSA double-shot PBT keycaps
- South-facing RGB per-key backlighting

ComX Computers

Product Specification Sheet

- Premium aluminium chassis with steel plate construction
- Screw-in PCB stabilisers for improved stability
- Multi-layer acoustic dampening system
- NKRO support for reliable key registration
- Compatible with Windows, macOS, and Linux

Package Contents

The Keychron Q0 Max package includes:

- Keychron Q0 Max QMK Gateron Jupiter Red RGB Wireless Custom Number Pad
- USB Type-C to Type-C cable
- USB-A to USB Type-C adapter
- Receiver extension adapter
- USB-A 2.4GHz receiver
- Keycap and switch puller
- Screwdriver
- Hex key

Why Choose Keychron

Keychron is known for producing premium mechanical keyboards that combine enthusiast-level customisation with practical everyday usability. The Q0 Max continues this approach with a strong aluminium design, advanced programming options, reliable wireless connectivity, and a refined mechanical typing experience. It is a suitable choice for users who want a dedicated numpad that offers more flexibility and performance than traditional office keyboards.
