Xiaomi Sound Play Speaker 18W - Green

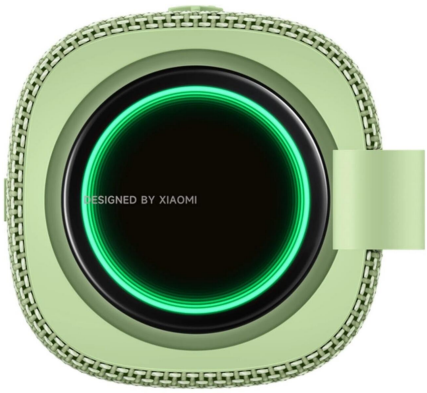

Product Overview

Xiaomi Sound Play Speaker 18W - Green, 18W Output Power, 14 hours Battery Life, IP68 Water/dust resistance, Bluetooth, Light show / RGB

Specifications

Overview Summary:

The Xiaomi Sound Play 18W Speaker in Green delivers powerful portable audio in a compact design. With 18W output, up to 14 hours of battery life, Bluetooth 6.0 and IP68 water and dust resistance, it is suited to everyday listening, outdoor use and social gatherings.

Beat-synced RGB lighting adds a visual element, while Auracast and TWS pairing support expanded party audio and stereo playback. Lightweight at just 415 g, the speaker is easy to carry wherever you want your music. Shop now or buy now for portable sound with a distinctive look.

Performance tier: Mid-range

Uses:music playback, parties, outdoor listening, home audio, travel, hands-free calls, stereo pairing

Overview:

18W immersive sound | Beat-synced 3D ambient lighting | Up to 14 hours playtime | IP68 water & dust resistance | Auracast multi-speaker party mode

Description:

The Xiaomi Sound Play Speaker 18W in Green combines powerful portable audio with dynamic RGB lighting and durable outdoor-ready construction. Its 18W racetrack-style full-range speaker works with internal and external passive radiators to produce punchy bass and an expansive soundstage. With Bluetooth 6.0, up to 14 hours of battery life, IP68 water and dust resistance, and Auracast multi-speaker connectivity, it is suited to everyday listening, parties, travel and outdoor entertainment.

Features:

Powerful 18W Sound in a Compact Speaker
The Xiaomi Sound Play is designed for users who want strong audio without carrying a large speaker. Its 18W output provides room-filling sound, while the racetrack-style full-range driver and dual passive radiator design help deliver deeper bass and balanced audio.

At just 415 g, the speaker is easy to take along in a bag or carry by hand. The compact body makes it practical for home use, social gatherings, travel and outdoor listening.

Portable Bluetooth Audio with Bluetooth 6.0
Bluetooth 6.0 provides a fast and stable wireless connection with low latency and high-quality audio transmission. The speaker supports a transmission range of up to 25 m, helping you keep your phone or other connected device at a convenient distance.

A built-in microphone also allows hands-free calls, making the Sound Play useful beyond music playback.

Beat-Synced RGB Lighting for Parties
The Sound Play adds a visual element to your music with two separate lighting areas. An infinity mirror light sits on top of the speaker, while an ambient glow ring provides additional illumination from the base.

The lighting responds dynamically to your music and supports different effects, including ripple, beat and constant modes. WRGB multi-colour lighting allows the speaker to create different atmospheres, whether you are listening casually or setting up a party.

Auracast Multi-Speaker Party Mode
For larger gatherings, Auracast technology allows up to 100 compatible Xiaomi Sound Play speakers to be connected for synchronised audio and lighting. This makes it possible to extend sound across a larger area while keeping the playback in sync.

For a smaller stereo setup, TWS pairing allows two Sound Play speakers to operate as left and right channels for true stereo playback.

Up to 14 Hours of Battery Life
The built-in 2600 mAh battery provides approximately 14 hours of playback under the stated test conditions of 40% volume with the lights switched off. This gives you plenty of listening time between charges.

USB Type-C charging makes recharging straightforward, with a full charge taking approximately 2.5 hours when using 5 V / 2 A charging.

IP68 Water and Dust Resistance
The Xiaomi Sound Play is built for more than indoor listening. Its IP68 water and dust resistance provides added protection when the speaker is used around water, outdoors or in dusty environments.

A soft rubber carry strap also makes it easier to transport the speaker between rooms, gatherings and outdoor locations.

Key Highlights

- 18W racetrack-style full-range speaker for powerful portable sound
- Internal and external passive radiators for deeper, punchier bass
- Bluetooth 6.0 wireless connectivity with a range of up to 25 m
- Auracast support for connecting up to 100 compatible speakers
- TWS stereo pairing for two-speaker left and right channel playback

- User manual x1

A Portable Speaker for Everyday Entertainment
Whether you need background music at home, a compact speaker for a social gathering or portable audio for outdoor use, the Xiaomi Sound Play combines strong 18W audio with colourful lighting and practical wireless connectivity. Its compact design, long battery life and IP68 protection make it a versatile option for users who want their music to travel with them.

Why Choose Xiaomi Sound Play
Xiaomi combines accessible technology with modern design and practical functionality. The Sound Play brings together high-output portable audio, Bluetooth 6.0, Auracast connectivity, TWS stereo pairing, dynamic RGB lighting and IP68 protection in a compact 415 g speaker. The result is a versatile Bluetooth speaker designed for both everyday listening and larger social occasions.

Performance Tier: Portable 18W Bluetooth Speaker

Uses: Music listening, home entertainment, parties, outdoor gatherings, travel, hands-free calls and multi-speaker audio setups
