

## R-CG530U-BKAGA4-G

Deep Cool CG530U 4F ATX Gaming Chassis - Black

### Product Overview

Deep Cool CG530U 4F ATX Gaming Chassis - Black, Front I/O Ports - USB 3.0 x2 / Gen2 Type-C x1 / Audio/Mic x1 / LED, 2x 3.5" Drive bays, 2+1 2.5" Drive bays, 7 Expansion slots, 160mm CPU Cooler height limit, 410mm GPU length limit

## Specifications

### Overview Summary:

The DeepCool CG530U 4F ATX Gaming Chassis is built for high-performance PC builds that demand strong airflow, flexible compatibility, and a clean modern design. With support for large GPUs up to 410mm and extensive cooling options, it provides a solid foundation for powerful gaming systems. Shop now to upgrade your setup with a chassis engineered for stability and performance.

Designed for modern gamers in South Africa, this case combines practicality with premium build quality. The tempered glass side panel allows full visibility of your components, while the front I/O panel with USB 3.0 and USB Type-C ensures fast, convenient connectivity for all your peripherals. Buy now to build a system that runs cool, looks sharp, and performs reliably under load.

**Performance tier:**High-end mid-tower gaming chassis

**Uses:**Gaming PC builds, high-performance workstation builds, GPU-heavy systems, custom cooling setups, upgrade PC enclosures

### Overview:

#### DeepCool CG530U 4F ATX Gaming Chassis Black - High Airflow Gaming PC Case for ATX Builds

A bold statement for your battle station, offering exceptional airflow and ample space for your high-performance components.

### Description:

The DeepCool CG530U 4F ATX gaming chassis is engineered for users who need a spacious, airflow-focused case capable of supporting modern high-performance hardware. It combines wide component compatibility, strong cooling potential, and a clean tempered glass design, making it suitable for gaming and performance PC builds that prioritise thermal stability and visual presentation.

### Features:

#### High Performance Gaming Chassis Design

The DeepCool CG530U 4F ATX Gaming Chassis Black is built to serve as the foundation of a powerful gaming system. Designed for ATX builds, it balances airflow efficiency with structural rigidity and internal space. The SKU for this model is R-CG530U-BKAGA4-G, identifying it within the DeepCool chassis lineup.

This case is intended for builders who require both performance headroom and a clean internal layout, supporting demanding GPUs, large cooling setups, and multi-drive configurations without restrictive space limitations.

#### Airflow and Cooling Configuration

Thermal management is a central design focus, allowing users to configure extensive airflow setups depending on performance needs.

- Supports up to nine 120mm fans or five 140mm fans
- Pre-installed 120mm fans at the front for direct intake airflow
- Flexible top, side, and rear mounting positions for custom cooling layouts
- Radiator support up to 360mm depending on mounting location

This structure enables consistent cooling for CPU and GPU components, reducing thermal throttling during sustained gaming or productivity workloads.

**Compatibility and Hardware Clearance**

The chassis supports a wide range of modern hardware configurations, making it suitable for mid to high-end gaming systems.

- GPU length support up to 410mm
- CPU cooler height limit of 160mm
- Motherboard support for ITX, Micro-ATX, and ATX formats
- Expansion slots: 7 total
- Drive support: 2 x 3.5 inch bays and 2+1 x 2.5 inch bays
- Power supply compatibility: ATX, SFX, and SFX-L (up to 210mm length)

This level of compatibility ensures flexibility when selecting components for both current and future upgrades.

**Front Panel Connectivity and User Access**

The front I/O layout is designed for practical daily use and modern device connectivity.

- 2 x USB 3.0 ports for high-speed data transfer
- 1 x USB Gen2 Type-C port for modern peripherals
- Audio and microphone combo jack
- LED control interface for lighting adjustments

This ensures quick access to essential connections without needing to reach the rear I/O panel.

**Build Quality and Interior Management**

The chassis is constructed using ABS, SGCC steel, and tempered glass for durability and visual appeal. A tempered glass side panel provides clear visibility of internal components, making it suitable for RGB-focused builds and custom configurations.

Cable routing space is designed to support clean assembly, reducing clutter and improving internal airflow efficiency. Tool-free drive installation simplifies SSD and HDD mounting, making system assembly more accessible for both experienced and first-time builders.

**Key Technical Highlights**

- Case type: ATX gaming chassis
- Materials: ABS, SGCC steel, tempered glass
- GPU clearance: up to 410mm
- CPU cooler clearance: up to 160mm
- Expansion slots: 7
- Drive bays: 2 x 3.5 inch and 2+1 x 2.5 inch
- Fan support: up to 9 x 120mm or 5 x 140mm
- Front I/O: USB 3.0 x2, USB Type-C Gen2 x1, audio/mic, LED control
- Product weight: 7300g
- Product dimensions: 47.5 x 28.5 x 38 cm

**Why Choose This Gaming Chassis**

The DeepCool CG530U 4F ATX Gaming Chassis is designed for users who prioritise cooling performance, hardware flexibility, and clean presentation. It supports high-end GPUs, advanced airflow configurations, and modern connectivity standards, making it a practical foundation for gaming and performance-focused PC builds.

Its combination of airflow capacity, component clearance, and structured internal layout makes it suitable for demanding systems that require stability under sustained load.
