RD-GCP06

Redragon GCP06 24 pin ARGB extension Power cable

Product Overview

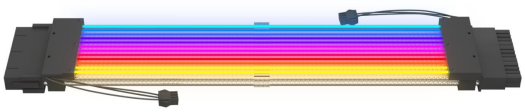

Redragon GCP06 24 pin ARGB extension Power cable, 5V 3 pin (ARGB) Connector Type, 18AWG conductor Gauge, Bright-coloured Aluminium foil (Pet) braid material, PVC insulation material, Transparent PVC jacket Colour, ARGB control via Motherboard ARGB Software

Specifications

Overview Summary:

Upgrade your desktop with the Redragon GCP06 24-pin ARGB Extension Power Cable, designed to add vibrant addressable RGB lighting while maintaining a clean and professional cable layout. Compatible with standard 5V 3-pin motherboard ARGB headers, it synchronises with supported motherboard lighting software for seamless integration into your gaming or custom PC build. Buy now and give your system a premium illuminated finish.

Built with durable 18AWG conductors, dual-side lighting PCBs and high-quality braided sleeving, the GCP06 delivers reliable performance and striking aesthetics in one easy upgrade. Whether you're building a new PC or refreshing an existing setup, shop now and add eye-catching RGB lighting to your motherboard power connection.

Performance tier: Mid-range enthusiast

Uses: Gaming PC builds, custom PC modding, desktop PC upgrades, RGB lighting customisation, cable management, showcase PC systems

Overview:

The Redragon GCP06 24-pin ARGB Extension Power Cable is designed to transform your PC build with vibrant addressable RGB lighting while maintaining reliable power delivery. Installed as an extension to your existing 24-pin ATX motherboard cable, it adds striking illumination across the full cable length, creating a cleaner and more visually impressive interior. With motherboard-controlled ARGB synchronization, it integrates effortlessly into your existing RGB ecosystem without requiring additional software.

Description:

The Redragon GCP06 is a premium 24-pin ARGB extension cable that combines stylish lighting with dependable construction. Featuring dual-sided illumination, durable 18AWG conductors, transparent PVC sleeving, and high-quality braided protection, it enhances the appearance of gaming and enthusiast PC builds while remaining easy to install. Compatible with popular motherboard RGB ecosystems, it delivers seamless lighting synchronization for a unified system aesthetic.

Features:

Bring Your PC Build to Life
Instead of leaving your motherboard power cable hidden in plain sight, the Redragon GCP06 turns it into a standout visual feature. Addressable RGB LEDs run along the entire extension cable, creating smooth lighting effects that instantly elevate the appearance of your gaming PC. The transparent PVC outer jacket allows every colour effect to shine clearly, making it an ideal addition to tempered glass cases and showcase builds.

Seamless Motherboard ARGB Synchronization
Using the standard 5V 3-pin ARGB connector, the cable connects directly to compatible motherboard headers for effortless lighting control. Once connected, it synchronizes with your existing RGB setup using your motherboard's lighting software, allowing colours, animations and effects to match the rest of your system without installing extra applications.

Compatible with popular motherboard RGB platforms including:

- ASUS Aura Sync
- MSI Mystic Light
- Gigabyte RGB Fusion

- ASRock Polychrome RGB

Designed to Look Great From Every Angle
Unlike standard RGB extension cables, the Redragon GCP06 uses dual lighting PCB boards to provide illumination on both sides of the cable. Whether your PC sits on your desk or inside a display cabinet, the lighting remains visible from multiple viewing angles.

The bright-coloured PET aluminium foil braid helps keep the cable neat while adding durability, making cable management easier without compromising appearance.

Highlights

- 24-pin ATX motherboard extension cable
- Full-length addressable RGB illumination
- Dual-sided lighting design
- Standard 5V 3-pin ARGB connectivity
- Motherboard-controlled lighting effects
- Durable 18AWG conductors
- Transparent PVC outer jacket
- Premium 16-spindle PET braided sleeving
- No dedicated RGB software required

Technical Details

- Part Number / SKU: RD-GCP06
- Connector type: 5V 3-pin ARGB
- Conductor gauge: 18AWG
- Conductor size: 163/0.08
- Stranded conductor lay: 30
- Braiding material: Bright-coloured PET aluminium foil
- Braiding: 16-spindle
- Insulation material: PVC
- Jacket material: PVC
- Jacket colour: Transparent
- Insulation diameter: 1.7 mm
- Jacket diameter: 2.4 plus or minus 0.1 mm
- RGB control: Via compatible motherboard ARGB software
- Package dimensions: 30 x 9.3 x 3.2 cm
- Package weight: 183.75 g

What's Included

- 1 x Redragon GCP06 24-Pin ARGB Extension Power Cable

An Easy Upgrade for Gaming PCs
Whether you are assembling a new gaming system or refreshing an existing build, the Redragon GCP06 offers a simple way to improve your PC's visual appeal. Its combination of reliable 18AWG construction, dual-sided RGB lighting and broad motherboard compatibility makes it an excellent choice for builders looking to create a clean, coordinated RGB setup. With Part Number RD-GCP06, this extension cable delivers both style and dependable performance for modern desktop systems.

Specifications

Product Code	RD-GCP06
Connector Type	5V 3-pin (ARGB)
Conductor Gauge	18AWG
Conductor Size	163/0.08
Conductor Lay of Stranded	30
Braid Material	Bright-coloured aluminium foil (PET)
Braid Size	16-spindle braid
Insulation Material	PVC
Jacket Material	PVC
Insulation Diameter	1.7 mm
Jacket Diameter	2.4 +/-0.1 mm
Jacket Colour	Transparent PVC
ARGB Control	Via motherboard ARGB software (no dedicated software required)
Product Dimensions	30 x 9.3 x 3.2 cm (giftbox)
Product Weight	183.75 g (with giftbox)
