Specifications

Overview:

REDRAGON KB MEMB SHIVA BK

Experience the tactile feedback of a mechanical keyboard without the loud actuation of each keypress with the Redragon SHIVA K512 Membrane RGB Gaming Keyboard. Its full 104-Key QWERTY layout doesn't take anything away from a standard keyboard, however, it does allow for 26 conflict-free key presses and features an extra 9 multimedia keys and 6 macro keys for your enjoyment.

Its RGB lighting has 7 pre-set backlight patterns and 6 customized modes which can be changed with a button combination. This keyboard allows at most 26 keys to work simultaneously to provide fast as well as accurate game response. This keyboard's bevel is host to unique and smooth lighting which runs around the keyboard's edges. Ergonomically designed with a detachable wrist-rest section connected by magnets, the wrist-rest offers great support to make use more comfortable.
