Specifications

About this product

The Redragon K617 Fizz 60% Wired RGB Gaming Keyboard delivers compact mechanical performance with smooth red switches, custom RGB lighting, and a detachable USB-C cable for easy portability. Designed for speed, precision, and comfort, it is ideal for competitive gamers and minimalist setups.

Overview Summary:

The Redragon K617 Fizz 60% Wired RGB Gaming Keyboard is built for speed, precision, and portability, making it the ideal choice for competitive gamers in South Africa. Its compact 61-key layout saves space while still delivering a premium mechanical typing experience. Equipped with smooth linear red switches, vibrant RGB lighting, and a detachable USB-C cable, this keyboard combines performance with convenience for both gaming and everyday use.

Buy now to experience responsive keystrokes, flawless anti-ghosting, and customisable lighting effects in a lightweight, travel-ready design. Whether you're an FPS enthusiast or simply want a minimal desk setup, the Redragon K617 Fizz ensures every keystroke counts.

Performance tier:Mid-range competitive gaming

Uses:FPS gaming, esports, home gaming setups, office typing, portable use

Overview:

Redragon K617 Fizz 60% Wired RGB Gaming Keyboard - Black

Purpose-built for fast-paced competitive gaming, the Redragon K617 Fizz 60% Wired RGB Gaming Keyboard delivers a no-compromise typing experience in a compact, ultra-lightweight chassis. Designed with FPS enthusiasts in mind, this 61-key mechanical keyboard maximises desktop real estate by eliminating excess keys and shifting focus to seamless hand mobility, giving users more space for wide mouse sweeps and precision tracking.

Description:

The Redragon K617 Fizz is a space-saving 60% gaming keyboard equipped with smooth linear red switches, vibrant RGB backlighting, and hot-swappable functionality. With its detachable USB-C cable, full anti-ghosting support, and ergonomic design, it offers gamers speed, precision, and personalisation in a lightweight build that's perfect for both competitive play and everyday use.

Features:

Key Advantages

- Compact 60% mechanical design with 61 keys
- Hot-swappable Redragon Linear Red switches for smooth, quiet keystrokes
- Detachable Type-C to USB-A cable for quick setup and portability
- 20 RGB lighting modes with onboard controls
- Pro Driver software for macros, remapping, and advanced lighting effects
- Full-key anti-ghosting and N-key rollover for flawless input recognition
- Height-adjustable stand with non-slip base for stability
- Stylish dual-tone white and grey keycap design
- Optimised layout for FPS gaming and minimal desk setups

Customisation Options

Users can tailor their gaming setup with up to 20 preset RGB effects and adjustable brightness and animation speeds directly from the keyboard. For advanced control, Redragon's Pro Driver software enables per-key lighting, macro recording, and remapping, giving players the freedom to fine-tune every detail.

Durability and Performance

Each switch is rated for 50 million keystrokes, ensuring long-lasting reliability. Combined with full-key rollover and anti-ghosting technology, every command registers accurately, even during intense gaming sessions.

Connectivity and Portability

The detachable USB Type-C cable makes the keyboard easy to carry, while plug-and-play support ensures instant compatibility. Its lightweight, compact size is ideal for gamers who travel or prefer a clean, minimal workspace.

In the Box

- Redragon K617 Fizz 60% Wired RGB Gaming Keyboard - Black
- Detachable USB Type-C Cable
- User Manual

FAQ

Is the Redragon K617 Fizz compatible with Mac and Windows?

Yes, it works with both Windows and macOS systems via USB connection. Some key remapping and macro functions are supported only through the Redragon Pro Driver on Windows.

Can I replace the switches on this keyboard?

Yes, the K617 Fizz is hot-swappable, allowing you to easily change compatible 3-pin or 5-pin mechanical switches without soldering.

Does it have onboard RGB control?

Yes, you can adjust lighting modes, brightness, and speed directly on the keyboard without using software.

Is this keyboard suitable for professional gaming?

Yes, it is designed for competitive and FPS gaming, offering responsive red switches, compact layout, and full-key anti-ghosting.

Does it include a wrist rest?

No, the Redragon K617 Fizz does not include a wrist rest, but its low-profile keys and compact design make it comfortable for extended use.
