

RD-K630W-RGB

Redragon K630W-RGB Wired Gaming Mechanical Keyboard

Product Overview

Redragon Dragonborn Wired Rgb Lights - 67key Design

Specifications

Features:

- 60% Layout In Wired: Brand New Redragon 60% design in wired only mode due to popular demand. 61 anti-ghosting keys for ultra-compact and minimalistic design. Frees up precious desk space for less clutter.
- Hot-Swappable Blue Switches: Distinctive tactile blue switch offers fantastic audible typing feedback. Hot-swappable with other Redragon switches. Made to last with switches rated for 50 million keypresses.
- Hot-Swappable Brown Switches: Tactile brown switches provide a soft bump but no click, unlike Blue, switches for quiet use. Hot-swappable with other Redragon switches. Made to last with switches rated for 50 million keypresses.
- Hot-Swappable Red Switches: Most quiet mechanical switch, linear and soft key travel makes every click easy to register. Hot-swappable with other Redragon switches. Made to last with switches rated for 50 million keypresses.
- Vibrant RGB: Up to 13 presets backlighting modes are free to choose by the keyboard itself. Brightness and flowing speed is also adjustable on board. Select your own preferred modes for any playing.
- Pro Software Customizable: Expand your options using the available software to design your own new modes and effects found on redragonshop. Macros with different keybindings or shortcuts for more efficient work and gaming.
- Dedicated for FPS Gamer: Place the keyboard proper straight on your desktop and no more crooked way for mouse space saving, your mouse will never hit the keyboard any more. Enjoy waving the mouse without any worries and go get that Team Kills.
