- 68 Keys 65% Wired Keyboard
- Custom Dragon Chant Switch
- 3-Layer Noise Dampening
- Ultra-Portable
- Redragon Gasket Out
- Dedicated Arrow Keys
- Hot-Swap Socket
- Software Supported

GASKET Design
The body structure differs from traditional screw fixing by using precision-locked covers with gaskets to assist with noise reduction and flexibility. It provides even feedback while the vertical cushioning reduces rigid noise, delivering a crisp, clean and softer typing feel.

YES! TRUE HOT-SWAP
The transformative innovation with 99.8%+ switches compatible free-mod hot swappable Redragon keyboard is available now. The unique exclusive structure design of the socket makes the switch mounting easier and less wobbling.

Noise Dampening x 3
Equipped with 3.5mm PO foam, IXPE switch foam, bottom socket foam along with the silicone gasket. Greatly reduces the hollow noise, creating dampened and clean typing acoustics, making each keystroke satisfying and comfortable.

Wired 68 Keys Layout
Redragon 65% layout K709 in wired mode meets the user's need for separate arrow keys and extra function keys. 68 keys ultra-compact and lightweight slim design frees up precious desk space for less clutter.

Custom Dragon Chant Switch

With thick-lubed custom linear switches combo with a gasket form factor, K709 features cushioned rich linear travel with silky creamy and cozy typing feedback.

Dedicated for FPS Gamer

Place the keyboard proper straight on your desktop and no more crooked way for mouse space saving, your mouse will never hit the keyboard any more. Enjoy waving the mouse without any worries and go get that Team Kills.

Software Supported

Expand your options using the available software to design your own new modes and effects found on redragonshop. Macros with different keybindings or shortcuts for more efficient work and gaming.
