Specifications

About this product

The Redragon M991 RGB PRO ENLIGHTENMENT Wireless Gaming Mouse delivers extreme precision with up to 26000 DPI optical tracking, ultra-responsive 1000Hz polling, and multi-mode connectivity via USB, 2.4GHz wireless and Bluetooth, making it ideal for competitive gaming and high speed control.

Overview Summary

Product:Redragon M991 RGB PRO ENLIGHTENMENT Wireless Gaming Mouse

Engineered for serious gamers, this high performance mouse features a cutting-edge 26000 DPI optical sensor with adjustable settings that provide precision tracking and adaptable control. With a fast 1000Hz polling rate and versatile USB, wireless and Bluetooth connectivity, it adapts easily to desktops, laptops, and gaming setups. Fully programmable RGB lighting brings striking colour customisation while the ergonomic design enhances comfort during extended sessions. Built from durable materials, this mouse ensures consistent performance match after match.

Whether you are engaging in competitive FPS gameplay or daily computing tasks, the ergonomic grip, responsive buttons, and advanced sensor performance offer both accuracy and comfort. The programmable buttons allow tactical macros and custom controls to suit varied user needs.

Performance tier:High

Uses:esports gaming, casual gaming, PC control, precision work

Description

The Redragon M991 RGB PRO ENLIGHTENMENT Wireless Gaming Mouse is a premium calibre gaming accessory designed to give players an edge with high precision, rapid response, and flexible connectivity. At its core is a high performance optical sensor capable of settings up to 26000 DPI, allowing pixel perfect tracking for fast paced games and detailed work alike. The mouse operates at a 1000Hz polling rate, ensuring smooth and consistent communication with your system. Multi-mode connectivity allows seamless switching between USB wired, 2.4GHz wireless and Bluetooth modes to suit different devices and environments.

Custom RGB lighting lets users express style or match a gaming rig, while the ergonomic shape provides comfortable grip for long gaming marathons. Durable build quality and programmable controls make this mouse suitable for both competitive gaming and everyday use, offering flexibility and responsive performance tailored to advanced gamers.

Features

Key product features and benefits:

- High precision 26000 DPI optical sensor for accurate tracking.
- 1000Hz polling rate for ultra responsive response in games.
- Tri-mode connectivity: USB, wireless 2.4GHz, and Bluetooth.
- Fully customisable RGB lighting with dynamic effects.
- Ergonomic shape designed for comfort during extended use.
- Programmable buttons for tailored controls and macros.

For the serious South African gamer who demands peak performance

The Redragon M991 RGB PRO is an extension of your will on the digital battlefield, engineered for victory. This wireless gaming mouse combines raw power with sophisticated control, ensuring that every click, every movement, and every decision is executed with absolute precision. Whether you are a professional esports athlete or a dedicated enthusiast, this ergonomic gaming mouse is designed to elevate your gameplay, offering an unmatched competitive edge. Its versatile connectivity

options mean you are never tethered, allowing for fluid movement and strategy across your gaming setup. This is the tool for those who understand that victory is forged in the details, and every advantage counts. This RGB gaming mouse is built for the discerning South African player.

Unleash unparalleled precision and speed with this gaming mouse

At the core of the M991 RGB PRO lies its exceptional sensor, capable of delivering a stunning 26000 DPI. This optical precision translates directly into superior accuracy, allowing you to track targets with pinpoint clarity, even during the most intense firefights or rapid maneuvers. Complementing this is a formidable 1000Hz polling rate, which ensures that every command is registered and transmitted to your system with near-instantaneous response. This synergy between high DPI and a rapid polling rate eliminates input lag, providing a fluid and responsive gaming experience that is crucial for high-stakes competition. You will feel the difference in every flick shot and every precise adjustment with this advanced gaming mouse.

Adaptability without compromise: Connectivity for every scenario

The Redragon M991 RGB PRO understands that no two gaming setups are the same. This mouse offers a trifecta of connectivity options to suit your needs: a reliable USB wired connection for maximum performance, a high-speed wireless mode for untethered freedom, and Bluetooth for seamless integration with a wider range of devices. This versatility means you can transition effortlessly between your primary gaming rig, a laptop, or even a tablet, all without sacrificing performance or convenience. Enjoy the freedom to play how you want, where you want, with a mouse that adapts to your lifestyle.

Immersive aesthetics and ergonomic mastery

Beyond its technical prowess, the M991 RGB PRO is crafted for comfort and visual appeal. Its ergonomic design is sculpted to fit naturally in your hand, reducing fatigue during prolonged gaming sessions and allowing you to maintain peak performance for longer. The meticulously engineered shape ensures a secure grip, crucial for maintaining control in fast-paced scenarios. Furthermore, the programmable RGB backlighting allows you to customize your gaming environment. With a spectrum of colours and dynamic lighting effects, you can create an aesthetic that matches your mood, your rig, or your in-game triumphs, making your setup uniquely yours.

Built for endurance and sustained dominance

Durability is a cornerstone of the Redragon philosophy. The M991 RGB PRO is constructed with high-quality materials designed to withstand the rigors of competitive gaming. Its robust build ensures longevity, providing a reliable companion for countless campaigns and victories. This mouse is an investment in your gaming future, designed to perform consistently, session after session.
