Roccat Kain 100 AIMO White Wired Titan-Click RGB Gaming Mouse

Product Overview

Roccat Kain 100 AIMO White USB Wired Optical 8500 dpi Titan-Click RGB Gaming Mouse, Retail Box

Specifications

Overview:

The Kain features a comfortable ergonomic shape and Titan Click technology for vastly improved click balance and precision. Experience perfect aim and tracking with the Pro-Optic (R8) optical sensor with 8500dpi. The AIMO illumination eco-system provides RGB lighting and LED effects customizable in 16.8 million distinct colors. The overhauled Titan Wheel 2.0 scrollwheel unlocks solid clicks and responsive scrolling steps. ROCCAT-exclusive Omron switches last for up to 50 million clicks.

Features:

- Textured side grips
- Improved wheel
- Titan click
- Ergonomic shape

One click ahead
The Kain has been a long time coming. It was obsessed over, but in the best possible way. The starting vision was to create the best possible click, but this evolved into a meticulous analysis of just about every part of the mouse. We remastered each detail, from the shape to the internal mechanics to the surface material. We don't use the word lightly, but we're proud to call it our masterpiece.

Feels as good as it looks
The Kain's shape was born out of a meticulous process involving two years of research and rigorous testing. The goal was to create an exceptionally refined and ergonomic build that doesn't distract or limit you. Every part of the Kain - from the shape to the buttons to the scroll wheel.

Evolutionary performance coating
Grippy, durable and dirt-resistant thanks to a hybrid anti-wear coating. That's what you can expect from ROCCAT's latest innovation in surface material technology. The performance finish helps you keep a firm hold of the Kain even during the most frantic of gaming sessions.

Titan Click - our best click yet

The Titan Click is what happens when ROCCAT completely overhauls the mechanics behind a mouse click. Leaving no stone unturned, every part of the mechanism was optimized in pursuit of delivering the perfect click. The split-button design with optimized switch location mean you can easily feel the difference in distinction, motion and precision.

Specifications:

- Stock Code:ROC-11-610-WE
- Description:Roccat Kain 100 AIMO White USB Wired Optical 8500 dpi Titan-Click RGB Gaming Mouse
- Pro-Optic Sensor R8 with up to 8500dpi
- PixArt PMW3331
- 35G acceleration
- 300ips maximum speed
- Mouse acceleration: no
- Angle snapping: on/off
- 1000Hz polling rate
- ARM Cortex-M0 48MHz
- 512kB onboard memory
- 1.8m USB cable
- Incl. Omron switches
- ROCCAT Easy-Shift technology
- ROCCAT Swarm software suite
- AIMO illumination - RGB Backlighting and LED lighting effects
- Weight: 89 g
- Operating system: Windows 10/8/7
