Specifications

Overview:

The wireless ROCCAT Kain gaming mouse features a comfortable ergonomic shape and Titan Click technology for vastly improved click balance and precision. The accurate ROCCAT Owl-Eye optical sensor is adjustable up to 16,000dpi and lets you achieve perfect tracking. Its long-life battery is optimized to perform for up to 50 hours on a single full charge. The AIMO illumination eco-system provides RGB lighting and LED effects customizable in 16.8 million distinct colors.

Features:

- Titan click
- Improved wheel
- Intelligent firmware
- Ergonomic shape
- Performance coating

Feels as good as it looks
The Kain's shape was born out of a meticulous process involving two years of research and rigorous testing. The goal was to create an exceptionally refined and ergonomic build that doesn't distract or limit you. Every part of the Kain - from the shape to the buttons to the scroll wheel - was finely crafted with care and precision.

Evolutionary performance coating
Grippy, durable and dirt-resistant thanks to a hybrid anti-wear coating. That's what you can expect from ROCCAT's latest innovation in surface material technology. The performance finish helps you keep a firm hold of the Kain even during the most frantic of gaming sessions.
