Roccat Siru Pitch Black Cutting-edge Gaming Mousepad - 34 x 25.0 cm

Product Overview

Roccat Siru Pitch Black Cutting-edge Gaming Mousepad - 34 x 25.0 cm

Specifications

Overview:

For gamers who want the most direct desktop feedback possible while still demanding a premium, gaming-grade surface, there can be only one option. Comprised of a single layer, ROCCAT's Siru mousepad is a knife-edge thin at less than a single millimeter thick, allowing for exceptionally precise tracking and lightning-fast aim corrections.

Features:

Knife-Edge Thin For the Most Direct Feedback

At 340 x 250 x 0.45mm, the Siru is truly knife-edge thin. The benefit of having such a blade-like gaming surface is that your mouse is on exactly the same level as your desktop, and you're provided with direct desktop feedback. This means exceptionally true and precise tracking, and the ability to make rapid, accurate cursor corrections - perfect when aim is the name of the game.

Optimized Gaming Surface for Glide and Control

The specially developed Siru surface is built for speed. It lets your mouse glide over it unopposed, so you can accurately track your enemy with ease. In spite of the Siru's superior glide, the innovative surface has ultra-precise control, preventing under- and over-aim. Available in Cryptic Blue and Pitch Black, the surface is as stylish as it is deadly, and has been field-tested with over 80 laser and optical mice.

Dimensions / Weight

- Width 34.0 cm , Length 25.0 cm
