Asus ROG Gladius II Wireless Ergonomic RGB Optical Gaming Mouse

Product Overview

Asus ROG Gladius II Wireless ergonomic RGB optical gaming mouse with dual wireless connectivity (2.4GHz/Bluetooth), advanced 16000 dpi sensor, ROG-exclusive switch socket design, and Aura Sync lighting

Specifications

Features:

WIRED PERFORMANCE. WIRELESS FREEDOM.
Get ready to lock your target and embrace victory with the ROG Gladius II Wireless optical gaming mouse with dual wireless connectivity (2.4GHz/Bluetooth). Gladius II Wireless has an advanced 16000-dpi optical sensor for fast response and precise control, ergonomic right-handed design to ensure you stay comfortable during extended gaming sessions and Aura Sync lighting technology to outshine the competition.

DUAL WIRELESS CONNECTIVITY
ROG Gladius II Wireless offers two types of cordless connectivity to meet different needs. Bond instantly with the included 1ms 2.4GHz USB dongle, or pair wirelessly via low-energy Bluetooth (BLE).

INDUSTRY-LEADING PERFORMANCE
Every strike is critical, so ROG Gladius II Wireless is equipped with a high-end optical gaming sensor that delivers the accuracy and speed you need to take down the opposition. Its 100- to 16,000-dpi sensor tracks movements flawlessly up to an insane speed of 400 inches per second (IPS). You'll also enjoy lag-free responsiveness with a 1,000Hz polling rate for ultrasmooth gaming experiences.

EXCLUSIVE SWITCH SOCKET DESIGN
The ROG-exclusive switch socket design takes personalization to a whole new level by enabling mouse switches to be easily changed. This means you have the option to install the switch of your preferred operating force and feedback, and you can replace worn or broken switches to extend the lifespan of the mouse.

ERGONOMICALLY DESIGNED FOR ALL GRIP TYPES
ROG Gladius II Wireless delivers the ultimate gaming comfort, campaign after campaign. Its contours and other design details such as rubber side panels were developed through meticulous trials and research in close collaboration with esports professionals. The result is a gaming mouse that fits snugly in the right hand, optimized especially for palm, claw grip or fingertip styles.

AURA SYNC RGB LIGHTING

Take style to the next level with ASUS Aura Sync RGB lighting. Fully customize your mouse using an endless spectrum of colors and a range of dynamic lighting effects. All illuminations can be synced with an ever-growing portfolio of Aura-capable hardware to create a truly personalized gaming den.

ARMOURY II

Armoury II is an enhanced driver-based peripherals configuration utility that offers extensive controls. An intuitive UI lets you easily tune ROG Gladius II Wireless to suit your gameplay - adjust performance and surface calibration settings, program and map buttons, customize lighting effects and more. You can even track hardware stats during gameplay for data analysis.
