

ROGRYUJINIII-360-EXT WH

Asus ROG Ryujin III 360mm ARGB Extreme White Edition Liquid CPU Cooler

Product Overview

Asus ROG Ryujin III 360mm ARGB Extreme White Edition Liquid CPU Cooler, 360 mm radiator with three 120 mm ARGB fans, Pump-mounted LCD screen, Maximum noise Level of 36 dB, Socket compatibility includes - AM5 / AM4 / LGA 1851 / LGA 1700 / LGA 1200 / LGA 115x, Fan count is three, RGB Lighting included, Tube length is 400 mm, Thermal compound pre-applied to CPU Block, Daisy-chainable fan cables with Male and Female connectors.

Specifications

Overview Summary:

Upgrade your PC with the ASUS ROG RYUJIN III 360mm ARGB Extreme White Edition Liquid CPU Cooler, designed specifically for enthusiasts in South Africa who demand top-tier performance and stunning aesthetics. This all-in-one cooling solution features a massive 360 mm radiator paired with three vibrant ARGB fans to ensure your processor stays cool even under the heaviest loads, while maintaining a whisper-quiet operation at just 36 dB. The sleek white finish makes it the perfect centerpiece for modern builds, and the integrated LCD screen allows you to display custom graphics or system stats directly from your motherboard.

Installation is hassle-free thanks to pre-applied thermal compound on the pump block, saving you time and effort during setup. With broad compatibility supporting AMD AM5, AM4, and Intel LGA 1851, 1700, 1200, and 115x sockets, this cooler is ready for your next upgrade or new build right out of the box. Secure your high-performance cooling solution today and elevate your system's capabilities by buying now.

Performance tier:High-End Enthusiast

Uses:Gaming PCs, Workstations, Content Creation, Overclocking, Custom Water Cooling Builds

Overview:

The ASUS ROG RYUJIN III 360mm ARGB Extreme White Edition Liquid CPU Cooler stands out as a premium solution for enthusiasts seeking both high-performance cooling and a striking visual presence. Designed with a sleek white finish, this all-in-one liquid cooler is perfectly suited for clean, light-themed builds that demand serious thermal management without sacrificing aesthetics. The unit features a substantial 360 mm radiator paired with three 120 mm ARGB fans, ensuring your processor remains cool even under intense loads. With support for the latest AMD AM5 and Intel LGA 1851 sockets alongside legacy platforms, this cooler offers exceptional flexibility for builders upgrading or constructing new systems in South Africa.

Description:

This product combines cutting-edge liquid cooling technology with customizable lighting to create a centerpiece for your PC. The ASUS ROG RYUJIN III 360mm ARGB Extreme White Edition Liquid CPU Cooler delivers efficient heat dissipation through its large radiator surface while maintaining whisper-quiet operation at just 36 dB. An integrated LCD screen on the pump allows for personalization, making it a standout addition to any high-end setup.

Installation has been streamlined to save you time and effort, with thermal compound pre-applied directly to the CPU block so

you can skip the messy application process. The included accessory pack contains all necessary screws and mounting brackets, while the 400 mm tube length provides ample slack for optimal radiator placement within your case chassis.

Features:

Efficient Cooling and Design

The cooling performance is driven by a robust 360 mm radiator that works in tandem with three high-quality 120 mm ARGB fans. These fans are designed to move air efficiently while keeping noise levels low, ensuring your system stays comfortable during long gaming sessions or heavy workloads. The daisy-chainable fan cables allow for a cleaner cable management setup by linking the fans together seamlessly.

A standout element of this cooler is the pump-mounted LCD screen, which adds a unique touch to your build and allows you to display custom images or system data. Combined with the vibrant ARGB lighting on the fans and radiator frame, the Extreme White Edition creates a visually stunning effect that complements white-themed PC builds perfectly.

For those concerned about compatibility, this cooler supports a wide range of modern CPU sockets including AMD AM5 and AM4 as well as Intel LGA 1851, LGA 1700, LGA 1200 and LGA 115x. This broad support means you can use the same high-quality cooler for multiple generations of hardware.

Technical Specifications:

- Radiator Size: 360mm
- Fan Count: 3 x 120 mm ARGB fans
- Pump Display: LCD Screen
- Max Noise Level: 36 dB
- RGB Lighting: Yes
- Tube Length: 400 mm
- Colour: White

The Part Number for this specific model is ROGRYUJINIII-360-EXT WH, ensuring you receive the correct white edition variant when ordering. This item represents a top-tier choice for users who value both performance and style in their PC components.

What's in the Box

- 1 x ASUS ROG RYUJIN III 360mm ARGB Extreme White Edition Liquid CPU Cooler
- 3 x 120 mm ARGB Radiator Fan
- 1 x Male cable for Daisy-chainable Fan
- 1 x Female cable for Daisy-chainable Fan
- 1 x ROG VIP card
- 1 x ROG Sticker
- 1 x Quick Start Guide
- 1 x Accessory Pack of Screws and Brackets

ASUS continues to lead the enthusiast market with this release, offering a product that balances thermal efficiency with aesthetic appeal. The RYUJIN III is built for those who want their hardware to perform at its best while looking exceptional in an open or glass-panel case.

	LGA 1851, LGA 1700, LGA 1200, LGA 115x
Fan Count	3
Pump Display	LCD Screen
Max Noise Level	36 dB
RGB Lighting	Yes
Tube Length	400 mm

FAQ

Is this cooler compatible with my Intel or AMD processor?

The ASUS ROG RYUJIN III supports a wide range of sockets including AMD AM5, AM4 and Intel LGA 1851, LGA 1700, LGA 1200 and LGA 115x.

Does the cooler require me to apply thermal paste manually?

No, the CPU liquid cooler block arrives with thermal compound pre-applied to simplify installation.

How much space does this unit need inside my PC case?

This all-in-one liquid cooler uses a 360 mm radiator and includes 400 mm tubes to give you flexibility when positioning components within your build.

Is the system quiet during operation?

The three included ARGB fans are designed for low noise, with a maximum sound level of only 36 dB.

Can I customize the lighting and display on this white cooler?

Yes, the pump features an LCD screen as a centerpiece while the three 120 mm fans include vibrant ARGB lighting that can be linked via daisy-chainable cables for a tidy setup.
