ROG STRIX Impact

ASUS ROG Strix Impact Wired Optical MOBA Gaming Mouse

Product Overview

ASUS ROG Strix Impact lightweight, ergonomic-ambidextrous wired optical MOBA gaming mouse, ASUS Aura Sync RGB lighting and Omron

Specifications

Overview:

ROG Strix Impact is a lightweight, ambidextrous gaming mouse that gives you the performance you need to dominate your favorite MOBA games. With ultra-responsive controls, quick movement, and incredible precision paired with a comfortable, ergonomic design that accommodates any grip type, ROG Strix Impact is your ultimate gaming weapon.

Features:

Light Up the Battlefield
ROG Strix Impact features exclusive ASUS Aura Sync lighting technology for customizable effects that add unique style to your gaming system.

Perfect Lighting in Sync
ASUS Aura Sync takes RGB lighting beyond the checkbox, combining and controlling the LEDs of your Aura-enabled products from a single application - so you can achieve perfect, synchronized lighting harmony. Aura lets you sync light effects across your motherboard, ROG Strix Impact, and an ever-growing portfolio of Aura-enabled products.

Separate Left and Right Buttons
ROG Strix Impact features buttons that are separate from the body chassis of the mouse, reducing the force and travel distance needed for each click, so you'll enjoy faster and more tactile button response.

DPI Switch and Indicator
A DPI switch enables instant switching between two sensitivity levels, letting you spontaneously increase or lower the pointer speed to suit your gameplay. A convenient DPI indicator shows the current setting.

Specialized Low-Friction Cable
A specialized soft-rubber coating reduces cable friction and snagging, and the cable attachment point is angled for minimal drag.

Durable 50-Million-Click Omron Switches

Mouse buttons and switches - especially switches on gaming mice - take the most abuse. Manufactured with high-quality Omron mouse switches that are rated to at least 50 million clicks, ROG Strix Impact is guaranteed to last.

Build Your Own Weapon for Total Victory

The intuitive ROG Armoury software gives you complete control over your ROG Strix Impact. Design custom Aura lighting effects, create button mappings, tweak performance settings, save mouse profiles, and more. Get ready to dominate!
