ROG Spatha

Asus ROG Spatha Wired/ Wireless MMO Gaming Mouse

Product Overview

Asus ROG Spatha Wired/ Wireless MMO Gaming Mouse features 12 programmable buttons, 8200 DPI laser sensor, Aura RGB and easy-swap

Specifications

Features:

- Specially-designed micro-USB cable prevents the cable dragging on desk.
- The left and right buttons are independent of the mouse body for a tactile click response.
- The scroll wheel features an Alps encoder for a positive stepped action.
- Premium magnesium alloy chassis for increased durability.
- Special steel-gray non-stick coat and textured Mayan-stenciled rubber panels for an assured grip.
- ROG Spatha's 8200DPI laser sensor and 2000Hz polling rate give you extreme precision and response - even the slightest movement will be tracked.
- Ergonomic right-handed design that's ideal for palm- and claw-grippers.

Twelve programmable buttons for MMO gaming
ROG Spatha has a total of 12 programmable buttons, including six thumb buttons, to give you intuitive command and control. It fits perfectly in your hand, and has been ergonomically-designed to give you tactile feedback and response.

Customizable switch socket design
Gaming mouse buttons take a lot of punishment, and that's why the buttons on ROG Spatha feature durable Omron® switches with a 20-million-click lifespan. The exclusive switchable socket design allows for easy customization too.

Six programmable thumb buttons
ROG Spatha comes with fully-programmable thumb buttons with Alps® switches to give you tactile feedback. The six buttons are arranged to resemble the iconic ROG eye and are designed to provide intuitive control and feel.

Wireless and Wired - it's your choice
ROG Spatha utilizes a high-speed wireless connection for high data throughput and low latency to ensure all your movements are tracked accurately. And once the battery runs out, you can continue using it while charging, all without losing response and performance.

Customizable light effects across three zones
ROG Spatha has an aggressive angular design that stands out. You can even customize the LED light effects on the scroll wheel, side buttons and ROG logo from a wide range of colors.

Prepare for battle with ROG Armoury
Customize user profiles, lighting effects, and program macros via the intuitive ROG Armoury dashboard.

EXCLUSIVE EASY-SWAP SWITCHABLE SOCKET
ROG Spatha features an exclusive easy-swap switchable socket design for easy upgrades. All you have to do is unscrew the four bottom screws with the bundled screwdriver to release the top cover and gain access to the sockets.

BUILT FOR GAMERS
Gaming is in our blood, and our R&D engineers worked extensively with professional gamers, took their feedback into consideration, and developed a gaming mouse that's designed to withstand the rigors of marathon gaming sessions. ROG Spatha is engineered for performance and durability, and stands ready for you to take into battle.

Game on, anywhere!
ROG Spatha features its own hard case and gives you the convenience of one braided and one rubber USB cable. Simply connect one to the charging station, and keep the other one together with Spatha in the stylish hard case to take to LAN parties.
